THE DEFENSEPREMIER CLEMENCEAU VISITS  
THE AMERICAN FORCES IN  
FRANCE TO COMPLE-  
MENT THEM.

## CONFER MANY HONORS

Troops Accomplished More Than the  
Dispatches Indicated and Allies  
Are Proud of Them.

[BY ASSOCIATED PRESS.]

Paris, March 4.—Premier Clemenceau visited the American troops today and reviewed the soldiers who repulsed the German attack Friday. The premier left Paris Saturday evening and returned this evening with the following semi-official announcement: "The president of the council desired personally to congratulate the American troops in the sector where they have just repulsed a strong enemy attack. The battalion which took part in this operation was rewarded by the premier in whose presence the general commanding the sector decorated with the war cross certain officers and privates whose bravery had been particularly remarkable. Check Sovers.

"This check to the enemy attack was moreover far more severe than the information showed. The American government had modestly announced that some of the enemy men were killed and some prisoners taken. As a matter of fact, the latest developments have shown that in addition to the losses, the Germans left a large number of corpses between the lines.

"It was a very fine success, reflecting great honor on the tenacity of the American infantry and accurate artillery fire which has shown they are capable of obtaining the maximum effect from the French material which they have adopted.

Visited Hospital.

"After visiting the field hospital, where he admitted the morale of the wounded, the premier went to the front line to examine the scene of this operation. During his conversation with American generals, officers and privates, the premier indicated in every way his absolute confidence which is possible had been heightened by the brilliant result of their first meeting with the enemy over whom our allies have thus shown their superiority.

"The premier also saw on his way some of our own troops at rest. He conversed with them and congratulated them for their valor and encouraging them. Our plot had but one reply. They shall not pass."

Search No Man's Land.

Volunteers from American units along the Chemins-des-Dames searched No Man's Land in the vicinity of the front line for thirteen missing men of a patrol party, but did not find any trace of them, except one man who had been killed. It is known that the Germans obtained prisoners from this patrol.

Details of a German attack which failed completely to reach the trenches are now available. American artillery laid down a barrage as soon as the Germans started their attack. It is known that three companies of especially trained "shock" troops which had been waiting for the attack for two weeks took part in the attack.

Many Took Part.

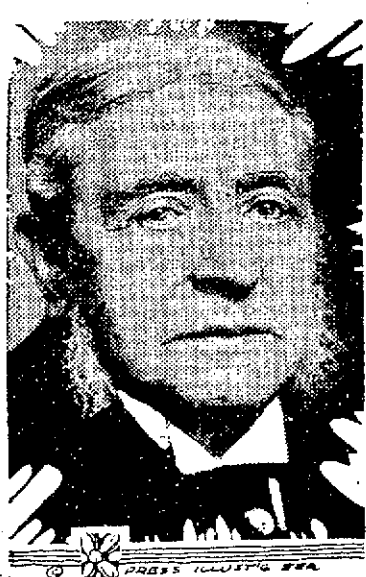

Each company was preceded by a picked party of twenty pioneers. The fighting was brisk for about an hour, but the accurate machine gun fire from the American front line, together with the perfect American barrage, which prevented reinforcements from coming up, forced the Germans to withdraw. The heavy machine guns and anti-tank guns of the American trenches. Soon after the attack was over a young lieutenant commanding a platoon, members of which had been killed, was taken into No Man's Land, but without results. He returned to his trench and asked for voluntary details. Every man in the platoon volunteered, but the lieutenant took out a small party and set out again. They were forced to return when the German fire became increasingly heavy. The lieutenant and a detail made a third attempt just before dawn, but without success. All the missing men came from New England.

German Report.

The German radio bulletin last night says that near Chavignon on the western section of the Alsace front, German troops had forced their way through Franco-American trenches and captured ten prisoners. The French official bulletin for the same day in reporting the attack which occurred Thursday night said that two columns of the enemy had broken through the heavy Franco-American trenches and were taken to the French.

French Proud.

The French general who trained the troops is proud of the showing they are making while completing the patrol of instruction. They called us tin snappers in America less than a year ago, but I guess we are delivering the goods that the same. Between 1,500 and 2,000 gas masks are being made by the American division on Chemin-des-Dames front today, but there have been no serious casualties there. The men have been trained thoroughly in the use of gas masks and the necessity of putting them on before going into the trenches. They do not find it inconvenient to work and fight "like divers," as they say. A few men have been killed while adjusting their helmets, but this is inevitable when gas shells are thrown a long distance behind the line. A brigadier general and a major, who were riding a few days ago, were gassed slightly when a shell burst within 100 yards of their car. They suffered from

headache and slight nausea, but otherwise there was no ill effect.

An American brigadier general says today he has asked for an American division citation for each member of the raiding party of 22 of his men which assisted the French in the raid on Feb. 23, in which two German officers and 21 men were captured. Two officers and two men of the raiding party already have been decorated by the French with the war cross. This is the first request for honors which has been made for Americans in this sector.

The American general commanding the units on this front said the men were eager for action and were anxious to get a crack at the enemy. However they are tempted to peer over the top in the daytime and go over at night in the hope of "starting something."

MEMBERS OF SENATE  
RETURN FOR SESSION

Madison, Wis., March 4.—Early morning trains brought back the Madison members of the Wisconsin senate who have been called here on motion of Senator Roy F. Wilcox of Eau Claire to settle the bond issue. Governor Philipp vetoed the Wilcox income tax bond bill on the ground that it was unconstitutional. In vetoing the bill, the governor stated that the opinion of Wood and Oakley, bond attorneys of Chicago, who Senator Wilcox said were competent men to pass upon this senate, Wilcox secured a call of the house, revoked the leaves of absence of 14 senators, and brought them back to Madison for a session tonight. It is understood that Senator Wilcox will suggest a new plan that will circumvent the governor's veto. The temper of the senate, however, seems to be stirred and there are some indications that new legislation will be enacted at this session. The senate meets at 9 o'clock tonight to take up the proposition.

If the senate decides to override the governor's veto this will force the assembly to take up the bond measure. Some of the members of the assembly are opposed to any further action on the fuel question and they want the whole matter left to a regular session of the legislature.

W. H. GOVERMAN MADE  
FUEL ADMINISTRATOR

Washington, March 4.—W. H. Groverman was made district representative of the fuel administration today for lake docks on Lake Superior and on the west shore of Lake Michigan, with headquarters at Minneapolis. He will also take charge of the northern state fuel administration shipment of lake coal.

ALLOTMENTS FOR  
FEBRUARY MAILED

Washington, March 4.—The first of the February checks for pay allotment and government allowance to dependents of soldiers and sailors has been placed in the mail and probably two weeks more will be required to complete the preparation and distribution of the remittance. It is announced today by the war risk insurance bureau.

LAWYERS GATHER FOR  
CALLING OF CALENDAR

Lawyers from all over the county gathered at the court house this afternoon for the calling of the circuit court calendar. The thirty-six petit jurymen have been summoned to appear at two o'clock tomorrow afternoon. It is probable that the Joe Stello murder case will not be commenced until Wednesday.

## Many Navy Enlistments.

Milwaukee, Wis., March 4.—Milwaukee on Saturday bade good bye to fifty-seven young men who enlisted in the navy. Forty-four who joined as machinists in the aviation service and thirteen as machinists, cooks and gunners, left for two different eastern ports.

Because of the crowded condition of the various naval training stations very few men who enlist in the navy in the past few weeks at the local recruiting station have been sent into active service. With the coming of spring, however, conditions have been improving and the men who have been home awaiting orders will be called rapidly to begin their training. There are still several hundred men taken in County Clare had a remarkable calming effect.

GERMAN PAPERS HAVE  
LITTLE INFORMATION  
ON FOOD SITUATION

New York, March 4.—German newspapers of the first half of January recently received here have suspiciously little to say on the food situation, which for two years before war was an important topic for discussion in practically all the Berlin newspapers. The coming political strike forced by food difficulties, and the prospect of an indefinite prolongation of the war through the attitude of the German delegates at Brest-Litovsk, perhaps caused its shadowy before and causing the censor to discourage publication of news calculated to augment the dissatisfaction of the working people. A decree of the Prussian commission on food administration mentioned, however, that mortality during recent months has been as high as 50 per cent above that of 1913 and for that reason, prescribed increased rations for tubercular patients, upon whom the effects of under nutrition are felt with particular severity. Further honors.

The newspapers, none of which is a friend of the food dictator, retorted very sharply that it was impossible for the municipalities to secure enough food to feed their populations without disregarding the maximum, which is a general practice throughout Germany, and declared that Minister Wadow could find, if he sought them, lawbreakers enough among the Prussian state offices and ward food bureaus.

Forwards, for example, remarked that the central administration of the province of Brandenburg distributed four among its employees for Christmas as a reward for their loyalty. The Berlin police prefecture sold butter to officials at the equivalent of \$2.12 per pound; that a state factory sold its employees with marmalade at 75 cents and beef for \$1.13 a pound, and that one of the food distribution bureaus under Minister Wadow secured for its employees as a reward for their loyalty a very poor quality of pork, which it sold to them at \$1.75 per pound.

The principal rations of the Berlin population were still on a low scale for the month—namely a pound of potatoes per day, four pounds of bread, one-half pound of meat and about an ounce of butter per small improvement in the milk situation has been noted, permitting the restoration of the earlier rations of milk for children, one quart for those up to two years of age and a quart for those below the age of four and a pint for children between four and six years. Expectant mothers are still on a ration of one quart of milk. Skimmed milk could be obtained only by other privileged ones, not by the general population.

GERMANS PREPARING  
FOR BIG CAMPAIGN  
ON THE WEST FRONT

Washington, March 4.—Continued preparatory movement on the part of the German army along the western front are noted today by the war department in its review of the military situation for the week ending March 2. The military situation is described in the statement declared, citing three attempts by the enemy to reach the line held by American troops is an example of what is taking place on a large scale along the western front.

The definite announcement is made that American forces have taken over a sector northwest of Toul and that a number of detached units are in action in the Champagne.

Operations in the eastern theater are expected to affect events in France through a modification of German plans, the review intimates. Six Toul columns are operating in Russia, and to only one of these—the column moving toward Viesk—is any opposition made.

Turkish forces advancing in the Caucasus are meeting with little resistance and are massacring Armenian residents of the districts retaken from the Russians.

SLIGHT CHANCE FOR  
ATTORNEY GENERAL

St. Paul, March 4.—Attorney General Lyndon A. Smith, who suffered paralysis of his right side a week ago, is believed to have had a slight chance for recovery according to a bulletin announced by attending physicians today. Although the patient has not suffered a second paralytic attack his strength is waning and his relatives have been called.

POKER EARNINGS  
SUBJECT TO TAX

Washington, March 4.—Poker profits were hit today by the internal revenue bureau in a formal ruling that earnings from the game were subject to the income tax but losses could not be deducted from income in figuring the tax. Thus there is a tax for the winner and no relief for the loser. The ruling was given in answer to a letter of inquiry.

QUIET REPORTED IN  
THE COUNTY CLARE

London, March 4.—Nothing has been reported from Ireland in the last few days which would suggest that the view of the British government of the home forces, to County Clare is due to any increase in the trouble in County Clare or elsewhere. On the contrary, recent reports have been that the special constables taken in County Clare had a remarkable calming effect.

RIGHT AS IT WERE TO IN-  
VADING FORCES.

## SEPARATE KINGDOMS

The Bolshevik Will Retain But a  
Very Small Portion of Greater  
Russia When All Is  
Finished.

Russian delegates at Brest-Litovsk have halted German invasion of Great Russia by agreeing to the peace terms offered Feb. 21 which was accepted by the Bolshevik government. The reason because every day of delay meant more demands by the Germans. Added provisions required the Russians not only to cede to the Germans territory in the region of Kurs, Batoum and Karabagh taken from the Turks during past wars.

Berlin Announcement.

Berlin also announced the signing of peace terms and the cessation of operations. When the German forward movement halted, the invaders were at Narva, 100 miles west of Petrograd, and approaching Luga, 88 miles southwest. The great part of the Baltic coast had been cleared of Bolsheviks. Much war material and more than 63,000 prisoners had been captured by Germans in the Russian campaign.

Divide Territory.

Germany apparently is determined to give the Bolsheviks but a narrow strip along the Gulf of Finland and at the request of the Finnish government to undertake the expulsion of Finnish revolutionists and Bolsheviks. Red Estonia under German control and the Bolsheviks will have less than 200 miles of coast line along the Finnish gulf. German troops already have landed on the island of Bothnia and will make the island the base of their operation in support of the Finnish government. Germany has assured Sweden she has no territorial interest in the Aland Islands.

Western Front.

On the western front the Germans are becoming more active. Their raiding operations have increased and are approaching planned attacks. The attacks on the French government, elsewhere and against the British lines were in greater strength last week than has been the case heretofore. The weather has been more favorable to military operation and the heralded storm blow or blows may be made soon.

Honor Americans.

American officers and privates who distinguished themselves in the repulsing of the German attack northwest of Toul last week have been decorated by the French government. The decorations being given the men in the presence of Premier Clemenceau, while visiting the Americans on Sunday. The French premier and inspected hospitals, talked with officers and men and returned to Paris satisfied Americans were able to hold their own against the common enemy.

Treaty Signed.

London, March 4.—Supplementary treaties between the central powers and Bolshevik government were signed at Brest-Litovsk, in addition to the main treaty, according to a telegram from Brest-Litovsk by way of Amsterdam, which gives no details.

Formal official announcement of the signing has not been received. The Russian side, in a late radio diagram from Petrograd says the treaty was signed Sunday. As the German official statement of Sunday night mentioned only the signing of the treaty in Great Russia, it is inferred in some quarters that the German advance in the Ukraine and Finland will be continued until a free man can be secured for themselves a free hand outside the limits of Great Russia.

Many Restrictions.

London, March 4.—Special dispatches from Petrograd describe the British and French embassies and the Belgian, Serbian, Greek and Portuguese legations last Thursday, after a series of hindrances from the Italian embassy, was sufficient to detain its staff in Petrograd after the others had left. The Italians were still in Petrograd Saturday and the staff of the Italian embassy, according to the correspondent of the Morning Post.

The Bolshevik foreign office, while permitting the American, Japanese, Chinese, Brazilian and Japanese delegations to leave without restraint, insisted upon endorsing all passports of the others before their departure and renewing their passports unless they described the owner as a diplomat.

Destroy Bridges.

Washington, March 4.—The Russians have been destroying bridges on the trans-Siberian railroad between Lake Balkal and the Chinese frontier. The Chinese chairman of the American railroad mission, reported this today to the state department. This may prevent Ambassador Francis's mission to the Chinese government.

While without detail officials here believe the Russians are destroying the bridges to prevent an expected advance of Japanese troops, a large number of other structures have been destroyed. Mr. Stevens also reports, so they could be readily destroyed.

Preliminary Move.

Washington, March 4.—Germany's occupation of Aland Island is only a preliminary to the total occupation of the island. An official dispatch to the Swedish legation today says. Germany has accounted to Stockholm of her intention to occupy Finland, and Sweden has protested against the Swedish occupation of Aland Island, the occupation of Aland Island, the

Their commander was notified by a German commander of his intentions, and so far there has been no clash reported. The Swedish troops have not been withdrawn and the feeling is described here as being very tense.

ANTI-LA FOLLETTE  
RESOLUTION HANGS  
FIRE IN ASSEMBLY

[BY ASSOCIATED PRESS.]

Madison, March 4.—The second call for the anti-La Follette resolution was issued today. There were only forty-two members in their seats when the assembly met pursuant to Saturday's adjournment. This was the first time since the assembly was organized that the number registered last week. The twenty-nine must be regained and still others sought in before the anti-La Follette resolution can be passed.

Sergeant at arms was instructed to bring in absent members subject to the discipline of the assembly. The doors of the assembly were closed to imprison those recent but actually a gentleman's agreement gave them their liberty during recess. Until after twelve o'clock this afternoon when additional members were expected leave of absence was granted Assemblyman Mahon, a leader of the so-called loyalist group, to present Saturday morning a bill to amend the constitution.

The Wisconsin legislation will be asked to go on record against the destruction of the Wisconsin railroad commission. This is the third time by congress according to Clark D. Jackson, chairman of the Wisconsin railroad commission.

In a letter to Speaker Whitte today Clark D. Jackson says there is a bill pending in congress that would prevent the railroad commission from fixing junction points and meeting of trains. Under this bill the railroad commission has the power to the railroad commission he thinks the state power over the railroads of Wisconsin will be at a minimum.

HUNDREDS OF LIVES  
BEING SAVED EACH  
MONTH BY WAR DIET

Madison, Wis., March 4.—Convincing indications are being received here that improved the health of the people but has resulted in the saving of hundreds of lives in Wisconsin are furnished by the state mortality report for January announced today by the state board of health.

The mortality was 2,221, and the death rate 5.5 per thousand population. There were 712 fewer deaths than in January, 1917, and 1,345 fewer deaths than in the same month of 1916. Comparisons are made with the deaths of the war periods when war conditions governed. Even prior to those years, however, the January death toll was greatly in excess of the same period this year.

The evidence of the superiority of war diet as a life saving proposition seems clear. In no other way is the reduction in deaths explained. This result comes in face of the fact that January this year was a month of steady, severe cold which culminated in the middle of the month with conditions of exposure, and susceptibility to colds and other infections, all of which under ordinary conditions tend to increase the death rate.

The people of the state have in a large measure overcome bad climatic factors by more careful attention to their eating. Reinforced dieting has made it impossible for most people actually to overeat, a failing which is the secondary cause of a large number of preventable deaths. Therefore, diet is as taught by Hoover et al., has been strongly conducive to health and longevity, and has been introduced at a time when saving of human life was never more tragically necessary.

Authorities on diet agree that the regime advocated by the food administration offers not only a better balanced menu but a more wholesome one as well. Emphasis is laid especially on the reduction in the meat supply and the use of meat substitutes; the free use of buttermilk, cheese, beans, nuts and other substitutes; the use of dried fruits in place of fried foods; the moderate use of sugar, and a much more liberal consumption of fruits and vegetables.

THINK PROHIBITION  
PARTY WILL DIE AT  
MEETING TOMORROW

[BY INTERNATIONAL NEWS.]

Chicago, March 4.—The Prohibition party, it is confidently believed, will pass out of existence after a meeting of the party leaders here tomorrow and become merged into the new National party, organized in Chicago several months ago.

Prohibition leaders from every state in the union will attend the meeting which is called primarily to discuss the merger question. That the merger will be effected is considered probable, as advance reports indicate a majority of the state organizations have instructed their delegates to favor the plan.

Leaders of the prohibition movement claim the passing of the prohibition party, which they declare has had the longest continued existence of any political organization, will usher in a new era in the political life of the United States. The National party, which is to replace it, is intended to mold together the radical and reform element of all parties and create a sharp division between the realist and conservative. Existing parties lines, it is predicted, will soon be wiped out as the result of the new political movement.

Although it will cease to function as an independent political organization, it is not planned to kill the organized prohibition movement by the merger. The prohibition movement will continue to exist as a separate party line, it is predicted, will soon be wiped out as the result of the new political movement.

The plan chiefly favored is the organization of a national dry federation which will take over the propaganda work now in the hands of the prohibition party. This federation, to be a sort of "prohibition war council," will be made up of the heads of all the prohibition and temperance organizations in the United States.

The federation plans to conduct a campaign to get ten million voters in every county in the United States to sign a pledge not to support any state or national legislative candidate who is not pledged to the prohibition party. It will father thousands of meetings and rallies in all parts of the United States.

M'CARTHY MAKES A  
BOW TO THE PUBLIC

Madison, Wis., March 4.—Dr. Charles McCarthy of Madison, issued a statement today in which he announced that his reason for offering himself as a candidate for the United States senate in the democratic primaries is to bring strength to the program of prohibition and to insure victory for the president's party.

"This is the first great referendum on the administration of this war," said Dr. McCarthy. "I am a member of this first battle before the people of this nation between those who believe in whole heartedly supporting the president and those who believe in the maintenance of the status quo. I am going to give my whole heart to smashing the Thompson-Berger fifty-fifty anti-administration outfit. I feel this is my duty."

"Why then do I oppose Davies in the primary? I do so only after the most thorough study of the situation. Joe is my friend. He is a life-long friend. I will support him without question if he wins.

"But, there is but one issue in this campaign: "To stand by President Wilson to get a complete endorsement of the president, the party of the president should win.

"To get a complete endorsement of the president, the party of the president should win. I should not only win but I should also completely snow under Thompson and Berger that this nation will ring with the victory. I should so thoroughly and everlastingly smash the machine of the fifty-fifty business that the impact shall at last shake congress into action and forever rout that 'body of wilful men' who have been so fatally delaying this war.

"It must ring through the world and bring to people of the stricken countries of Europe a new hope and fortitude. I have been in the office of Mr. Hoover's office the cables from the governments of those war-weary peoples and well I know the need of that endorsement and the value of that endorsement."

"It must be such a victory as Paul Husting would wish. For years and years I have fought for sane construction of the federal government and for legislation which would do for the farmers and producers of this state and nation. With voice and tongue and pen, I have championed their cause as wisely as I knew how."

"Frankly, I know that these men believe in me and will stand with me. I therefore, offer myself in the primary because, if I am selected to lead the fight, more loyal men from every party and every condition of life and politics will be enlisted in the fight against the common enemy than can unite on any other one man. With all the forces that will unite on me I will be a sure victor."

"I am not nominated that victory is not sure because the democratic party of itself is not strong enough and if victory does come it will be not of the overwhelming nature that it should be."

TOO YOUNG FOR SOLDIER  
BUT WOULD BE A SPY

Washington, March 4.—Uncle Sam can have the services of a perfectly good spy if he wants them. Peter Rivers, aged 17 years, of Maple Lake, Minn., says so.

Writing to U. S. Marine Corps headquarters, Peter said, among other things: "I'm too young to be a soldier, but I can be the best spy you ever saw. Send me along a spy's badge and a Colt's .45 and I'll go right to work. I've read history and my only regret is that I haven't a little like a cat so that I could give them all to my country."

In expressing appreciation of Peter's offer of service, the Marine Corps authorities advised that the boy should be sent to the Marine Corps at the point of departure before tackling the business seriously.

Daring Holdups.

Monasha, Wis., Mar. 4.—Police here are working on one of the most daring holdups which was ever made in this city. Two men, unmasked, entered the store of Peter Kennerly and at the point of revolvers forced the proprietor to turn over the contents of the cash register. They overtook a roll of bills which Mr. Kennerly had on a period of time in the cash register the men disappeared. They were strangers but the authorities are said to be in possession of several clues and arrests may be made within a few days.

ity will command the support of the party," said Frank M. Hoyt, temporary chairman of the republican council called for the purpose of reaching an agreement whereby either former Governor Francis P. McGovern or Congressman Irvin L. Lenroot might possibly be agreed upon to oppose James Thompson of La Crosse, known as the war profiteer, in the race for republican nomination for U. S. Senator at the primaries on March 19.

Attacks German Plans.

Chairman Hoyt said the man was "blinded who could not see the danger to the United States was part of the plan of world conquest with which the German government was obsessed, and for which it spent years in preparation. He said that Wisconsin had suffered the disgrace of having its representative in the United States senate when war was declared on Germany that was proceeding on peaceful terms. He said that the German government was now proceeding on peaceful terms and that "she now relies thereupon to hamper and impede our government in its effort to prosecute the war."

Pushed in This State.

Mr. Hoyt said that in no state has this German propaganda been more energetically pushed than in Wisconsin and nowhere has its effort been attended with more success. He said that Wisconsin had suffered the disgrace of having its representative in the United States senate when war was declared on Germany that was proceeding on peaceful terms. He said that the German government was now proceeding on peaceful terms and that "she now relies thereupon to hamper and impede our government in its effort to prosecute the war."

Send Loyal Senator.

In conclusion Mr. Hoyt said: "You are members of a party which, under the leadership of the immortal Lincoln, saved this nation from ruin. That Wisconsin should show you are self worthy of that great heritage by sending to Washington a senator who will help and not hinder the government in its effort to win the war and proving that our people are now as loyal and as patriotic and devoted to the nation as they were in 1861."

REACH AGREEMENT ON  
COMPENSATION BILL

Washington, March 4.—Agreement on compensation of railroads while under government control based upon the average of their net income for the three years ending June 30 last, stand substantially in the form approved by the senate, was reached today by the congress on the administration railroad bill.

The house conference accepted the senate provision to provide no allowance shall be made for money spent on improvement during the last few months preceding federal control. This would reduce the compensation about \$3,000,000 annually. Subject to final approval the senate conference agreed to include a short line railroad under the act instead of only compensating short lines during the fiscal year 1917, \$160,000 of the trust funds of Chippewa Indians of Minnesota and expending it for their support were today set aside and an injunction dissolved by the supreme court.

DECISION RENDERED  
IN FAVOR OF LANE

Washington, March 4.—Federal court decrees enjoining Secretary Lane from withdrawing from the treasury during the fiscal year 1917, \$160,000 of the trust funds of Chippewa Indians of Minnesota and expending it for their support were today set aside and an injunction dissolved by the supreme court.

Wisconsin	6	250
Northwestern	5	214
Minnesota	4	167
Indiana	3	100
Purdue	4	171
Chicago	5	158
Ohio State	3	175
Michigan	0	100

Coming from behind in a whirlwind finish with but two seconds left to play Wisconsin won a hard-fought victory over Minnesota at Minneapolis in basketball Saturday, by a score of 18 to 17, thereby clinching its hold on the conference title.

Baskets by Knapp and Zulfier in the closing minutes of play gave Wisconsin the long end of the score and brought victory when defeat looked almost certain. There was only five seconds left to play, when Zulfier tossed the winning basket and crushed the hopes of the giant men of the north.

The game was hard fought from start to finish, Minnesota having a slight edge during the early part of the contest due to Wisconsin's delay in getting its offense going fast. At the end of the half the gophers led by 9 to 8 count.

In the second half Wisconsin was clearly the best from the standpoint of team play and aggressiveness, although Minnesota held a lead of three points until the closing minutes of the contest. The gophers played a wonderfully aggressive game all the way through, but the persistent fight of the badgers to the last second was irresistible and made victory sure.

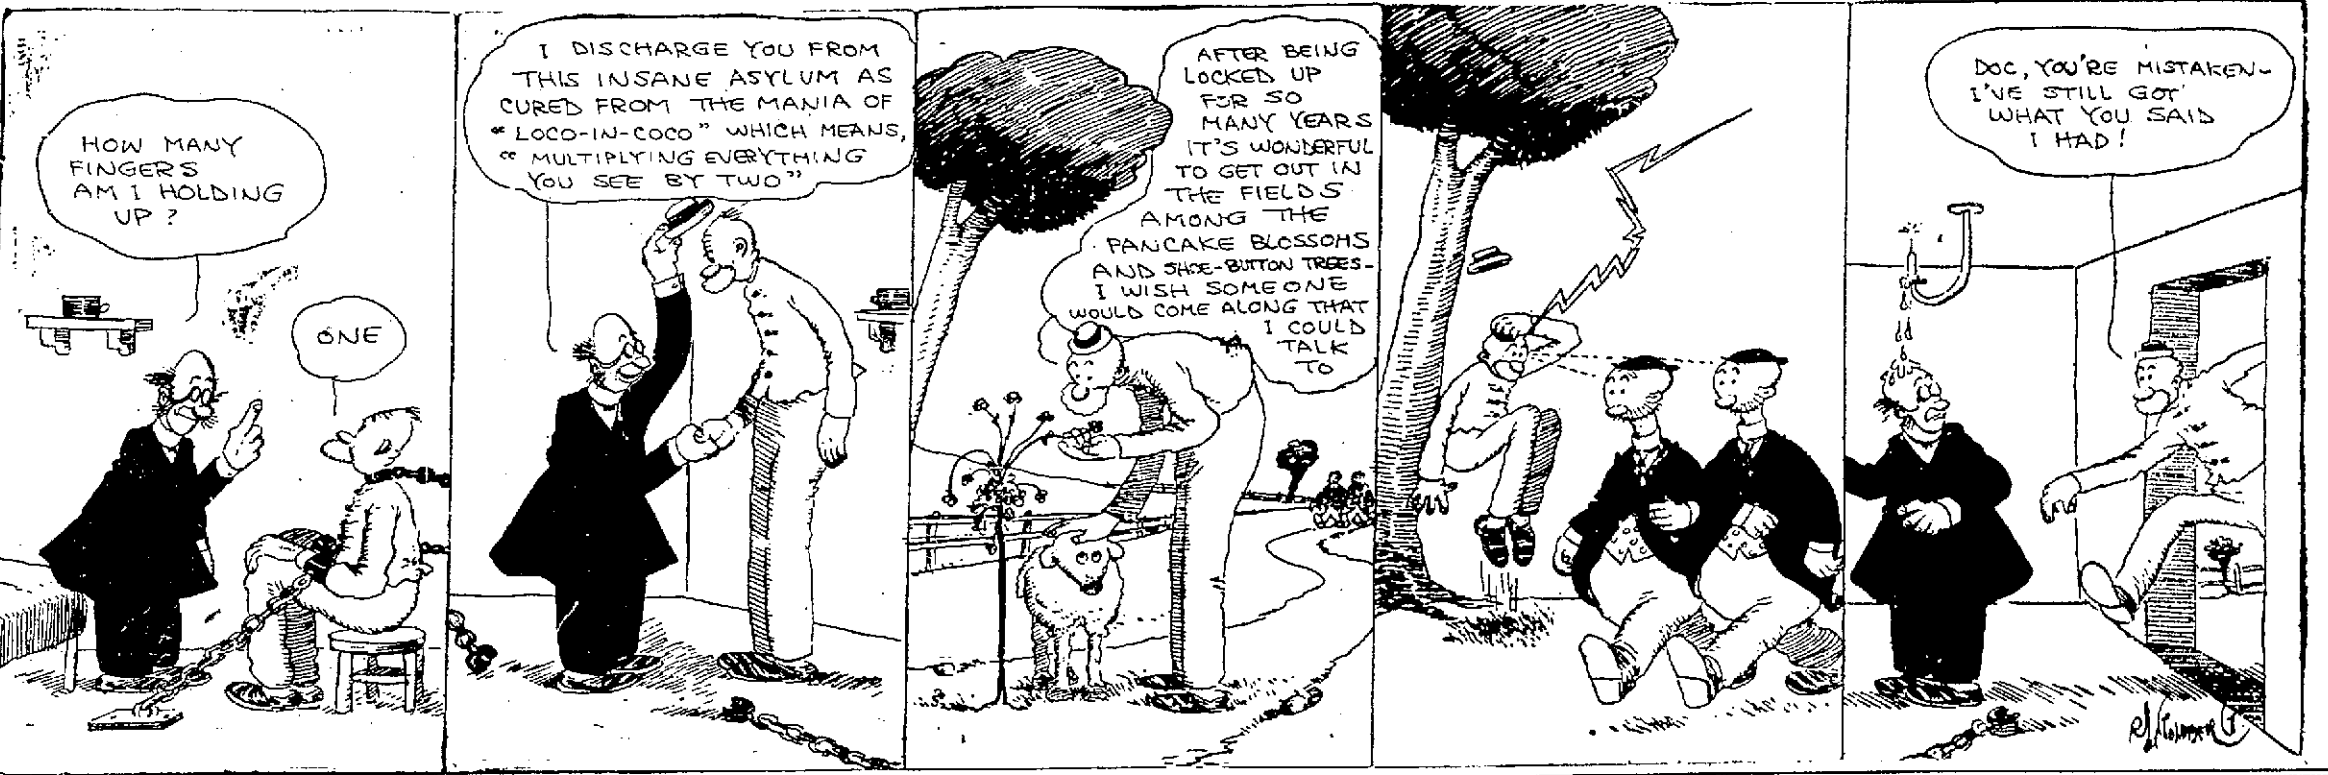

The line-up, and score:		
Wisconsin	18	250
Minnesota	17	214
Knapp	11	167
Zulfier	10	100
Chandler	10	171
Simpson	10	158
Brook Knapp	10	175
Baskets—Zulfier, 2; Chandler, 2; Knapp, 1; Simpson, 1; Knapp, 1; Williams, 1; Kingsley, 2; Arnston, 3.		
Free throws—Chandler, 4 out of 7; Arnston, 3 out of 12.		

## BOWLING TOURNAMENT WILL OPEN TOMORROW

Crack Bowlers from Southern Wisconsin Will Compete at West Side Alleys—Meet Continues Until March 25.

Attention of Wisconsin bowlers is centered on the grand Southern Wisconsin Bowling Tournament which opens at the West Side Alleys tomorrow and will continue until the 25th of this month. Crack bowlers from all over the southernmost part of the state will compete and some high scores will be rolled.

## MIKE AND IKE—THEY LOOK ALIKE.

Practically every city in this part of the state has entered one or more teams and several Milwaukee teams will perform. Special cash prizes will be awarded for high scores in the five-man events and in the singles and doubles. The alleys have been placed in the best of condition for the meet and the present indications are that it will be a grand success. The list of entries has not been closed as yet and several more teams are expected to enter tomorrow or Wednesday.

## PRESBYTERIANS AGAIN LOSE BOWLING MATCH AT Y. M. C. A. ALLEYS TO CHRISTIAN ROLLERS

Presbyterian bowlers were swept off their feet last Saturday night in a game with the Christian bowlers at the Y. M. C. A. The first game was won by the Presbyterian rollers, but in the next two the Christians girded up their loins and back like a whirlwind, ending the game with a lead of 108 pins. Atwood of the Presbyterians knocked over the most pins for the Presbyterians and was high man during the meet, while G. Shaul rolled high with 176 pins for the Christians. The Presbyterians had some high scores but on the average they bowled lower scores than the Christians, who rolled a consistently high game.

Efforts to tie a can to the spitball artists continue. National league club owners were anxious to put through a ruling at their meeting a while ago that would put a crimp in spitballs and the like, but other more important matters crowded it out and the thing was never brought up for discussion. Barney Dreyfuss, Pirate owner, is especially hot after

the spitball twirlers. If Barney and those with him had their way there would soon be quite a horde of big league pitchers looking for other situations. The average fan would weep to think of many of his favorites being chased out of the business. It would amount to a lull as that because most all of those

who are effective with the spitball would be lost without it.

The Boston Braves' club officials, like the Yankees, are making a secret of all dealings with their players. The list of unsigned players has not been given out.

One of the rules passed by the National league club owners at their meeting recently was designed to put a curb on the practices of certain players who delight in "riding" players of opposing clubs during close games. The club owners classified these talkers as "goat getters" and went on record as favoring very drastic action by umpires whenever any player sets out to get an opponent excited in this way. Though no players were mentioned in the report of the meeting at which the rule was passed, certain talkers were picked out as the ones at whom the new law was aimed. Johnny Evers, caustic in his wit, was frequently mentioned as a "goat getter" Evers ranks second to nobody in the big leagues. The following day John joined the Boston Red Sox, thereby going out of the National league. A few minutes after transferring his allegiance Evers met Barney Dreyfuss at the Waldorf in New York. "Ha, Ha," chuckled Johnny to Bar-

ney. "You passed a rule yesterday to keep me quiet, and now I hop right out of your league."

If Joe Wood finds he cannot deliver his famous smoke ball as he did while with the Red Sox, Manager Lee Fohl of the Indians will make a first baseman out of him.

Walter Johnson has not yet signed with the Washingtons. Rumor has it that the great pitcher is dissatisfied with Clark Griffith's offer. Johnson, it will be remembered, signed with the Chicago Cubs early in 1915 for \$20,000 a year, it was said. Johnson was advised by a well known judge, whom he consulted, that the Washington club had an option on his services. Johnson then repudiated the Cubs and signed a three years' contract with Griffith for \$12,000 a year. This contract expired in October and Griffith, it is said, wants Johnson to accept not more than \$10,000 in view of the fact that interest in baseball at the capital is at a low ebb.

The National league umpires do not regret that Johnny Evers will not be with them next season. Since Johnny broke into the league as a Cub in 1902 he has had many a

verbal battle with the indicator handlers.

Ponder, the young pitcher of the Pirates, who showed up so well during the latter part of the 1917 season, is now a member of the aero squadron at Fort Sill, Okla.

Manager Len Fohl of the Indians is having a hard time trying to land a first baseman.

## WAR WORKERS MEET IN CALIFORNIA FOR PLANS TO AID GOVERNMENT

(BY INTERNATIONAL NEWS.)

San Francisco, March 4.—One of the largest and most important "war conferences" yet held in any state is scheduled to open here tomorrow, when the thirty-three members of the state council of defense will meet for two days with more than 200 representative war workers from all sections of California.

The purpose of the conference is the coordination of all war activities and the taking up of new lines of war endeavor in order to aid the national government in carrying out its plans. It is hoped that a member of the council of national defense from Washington will be in attendance.

# LET US DO OUR DUTY

The battle of Verdun will go down in history as the greatest world's battle ever fought up to the present time. In this battle the lives of hundreds of thousands of the brave men of France were laid down on the altar of their country.

Numerically outnumbered by the enemy, nothing saved the day except the grim determination of the French soldiers who kept in mind the pictures of ravished women, desolated homes, the murder of innocent children and old men. Each remembered his duty to his family and to his country. He repeated either to himself or aloud a phrase which will go down in history as one of the most wonderful ever uttered by men—"They shall not pass";—AND THEY DID NOT PASS.

No matter how strong came the enemy columns, they were met by this grim phrase, expressed by determined men who stood by their batteries, manned by brave men who gladly and willingly gave their lives for their country. When mowed down, these men and batteries were almost immediately replaced by men equally brave and determined, and—THEY DID NOT PASS.

What was the result?

The enemy were checked and turned back... France was saved from being over-run by the foe; enlightened civilization saved for the generation, and German ambition and hopes for world dominion and conquest shattered.

Into this great cataclysm of war has been drawn America. The honor of the country, the sacredness of home and loved ones are at stake. Already hundreds of thousands of the flower of young manhood from America have been sent to the front. Hundreds of thousands and perhaps millions, will have to go before an honorable or lasting peace is established.

This great war has been brought to the homes and fireside of hundreds of happy homes in Rock county by the taking away of loved ones, who go to do their full duty for you and for me. Many hundreds of other homes in this county will be stripped of their young men before the war is ended. How your heart and mine goes out to these brave fellows, as we see the hardships ahead of them. Robbed of the society of their friends, giving up positions, hopes of immediate advancement, and ultimately going into the muddy trenches—there to stand perhaps for hours at a time and to be the target of an enemy whose frightfulness in warfare has no precedent in history.

When you bid your son or your neighbor's son, or your friend, "Good Bye," as he donned the khaki, you realized that this might be the last opportunity you would ever have of saying "Good bye" to this young fellow. It is a moral certainty that many will be buried on the battle fields of France. Some, if permitted to return, will return maimed and mutilated for life; others we trust will be returned just as good men as they were when they departed.

These men, thousands of miles away from home, will at times become homesick, discouraged, and perhaps suffer from lack of food and clothing. If you had the opportunity, you would gladly take the trip with them—staying in the rear—and when they come in from the trenches, give them the little comforts which you would like to provide—the clean sweater, a pair of socks, a cup of tea, or coffee, and the sympathy and thoughts of home they crave; and throw about them the feeling that some one is there to love and care for them.

This, however, you cannot do.

There is a way, however, to provide these men with some of the

things you would like to give them. This is by the means of a number of great war benevolences. Four of which have been officially recognized and endorsed by the president of the United States and the War Board: viz., the National Red Cross, the K. of C., the National Y. M. C. A., and the War Recreational Fund. These four great benevolences are thoroughly equipped and organized, and are in position to give and are now giving the greatest possible amount of needed service; many times more than could be done by an individual.

The war funds committee of the County Council of Defense worked out the plan of raising at one time, money necessary for the sums allotted to Rock County. The plan is to assess all who own property in the county or who have incomes or both, at the rate of two mills on the dollar.

It is equitable, just and fair.

It takes money to support these organizations. It takes your dollars and mine; but in so doing we provide for our boys at the front the very things that we would like to provide for them, and with the influences with which we would like to surround them.

Do you suppose for a moment there is any man, woman, or child in Rock county who, knowing these facts, would be so unkind as to want to deny these boys the little pleasures and comforts and homelike atmosphere, if you please, which can be extended to them through these organizations?

I, therefore, wish to say that the man or woman who is in receipt of an income or has property, or both, and who refused to pay his "fair share", is not worthy to live under the blessings of the government of the United States.

I can think of but two classes who would refuse to contribute. The man or woman who does not understand what these great benevolences stand for; and the traitor to his country.

He who has the means to give and does not give, will be about as popular in the estimation of his neighbors and the people of Rock county as a skunk in a parlor.

What finer tribute can we pay the men who are already at the front and to those who are going, than to gladly and enthusiastically contribute the amount we are assessed to pay our share required for the support, comfort and needs of these men who are fighting our battles?

How proud these boys will be to think that their friends in good old Rock county are thinking of them, and respond gladly to the demands of their pocketbook; paying in some cases until it hurts, in order to show their appreciation of those who are enduring hardship, exposure, discomfort and danger.

What will these boys feel and think of those who failed to respond to their needs in the time of war?

Men and women of Rock county, it is my solemn belief that now is presented an opportunity to make a sacrifice in raising this money, and to get down on bended knees and bowed head and thank God for the opportunity.

That you will be blessed in satisfaction for having done a good deed is certain. I am sure as the years pass and you look back upon this hour when you were asked to do your duty AND YOU DID IT IN FULL MEASURE, it will be a source of great comfort to you.

The assessment is distributed so that all will be assessed exactly in proportion to his wealth. Every loyal person who has an income, real estate, or personal property is expected in this hour of need, to

pay his or her fair share. This share is two mills on the dollar; one-fifth of a cent; or 20c on 100.00.

For instance, if you have a farm or a home assessed at \$3,000.00, your share of the assessment would be \$6.00. Should there be a mortgage of \$1,000.00 on the same, you would be assessed on the equity only, or \$4.00; and the owner of the mortgage would be looked for to pay the assessment on the mortgage, or \$2.00.

Or, if you have mortgages or bonds in addition to the foregoing property, you would be expected to pay the same ratio of assessment on the bonds or mortgages, and upon the income therefrom.

You will be surprised to see what a small amount you have to pay when the assessment is spread out over the county, taking in everyone.

Suppose, for instance, you have no real estate or personal property upon which assessment is made, but you have a salary or income of \$500.00 per year. You would be assessed upon this salary for a period of one year, which would be exactly \$1.00.

If you have a salary of \$1,000.00 per year, you would be assessed \$2.00.

There are hundreds—yes, thousands—of people in Rock county whose income does not amount to more than \$1,000.00 per year, who have paid \$3.00, \$4.00, or \$5.00, per year each for the "Red Cross, or the Y. M. C. A., or some of the other benevolences. In other words, they have been paying more than their share.

Every person sharing in the raising of this fund on the basis of two mills on the dollar will be contributing according to his or her means in exactly the same ratio.

One question has been asked many times; and that is, "How are we going to get the fellow who has a lot of money out at interest or in bonds, from which he is drawing an income?" I can answer this question by telling the following incident. Last week a man stepped in the office of the War Fund's Committee of the Rock County Council of Defense, and said, "Mr. Parker, I have \$30,000.00 in mortgages, and I want to know what my assessment will be. Will I be expected to pay on the mortgages and the income derived from these mortgages as well?" He was informed that he would. He was perfectly satisfied and voluntarily said, "I shall be glad to pay my share."

Today five hundred men all over Rock county are devoting their time without one cent of pay or remuneration to the collection of these assessments.

Greet them gladly, pay willingly!

After this is done how proud we will be to know each has done his duty, patriotically, and unselfishly. What a feeling of comradeship and friendship will be the lot of each who has shared in this noble work, men and women from the north part of the county sharing equally with those of the south and central parts, each given the opportunity of making sacrifices which makes for better citizenship by doing worthy deeds.

Today as these lines are being written, our Company M boys are on the ocean in the zone of the submarines.

Who among us would willingly exchange places with them for a thousand dollars or ten thousand, for that matter.

If they reach France safely, they will soon be transferred to the battle front, and then will come the cables with the casualties!

You will be proud to have paid your share.

## THE PEOPLE'S WILL.

With the question decided that the  
 city of Janesville should return to the  
 old form of government, the question  
 of the form of government to be estab-  
 lished, even the most critical oppo-  
 nent to the commission form of gov-  
 ernment admits that during the six  
 years of its existence the commission  
 form of government has accomplished  
 much. No one can deny that com-  
 mission government has been a suc-  
 cess in Janesville. It has been a  
 success in financial shape and it  
 is to be hoped men will be selected  
 that will follow out this policy. Talk  
 about a wide open town is absurd.  
 There is a state law that prevents any  
 more liquor licenses being issued than  
 are at present. Gambling and other  
 evils can be restricted under state  
 laws, even if permitted by city offi-  
 cials. Janesville is a pretty good town  
 to give in when you come right down  
 to it and if the petty differences could  
 be wiped out once and for all it would  
 pull together as have other commu-  
 nities, and become a much larger com-  
 munity. The fact that the city will  
 be governed by citizens instead of  
 commissioners, will not mean new fac-  
 tories will be brought here, or that  
 any vacant stores will be leased for  
 new business enterprises. These are  
 war times and combination and con-  
 centration of resources, will mean that  
 many business houses now in existence  
 will be forced to unite their energies  
 with other firms, thus making it pos-  
 sible that even less places of business  
 concerns than at present are in oper-  
 ation a year from now. The big  
 thinking men of the United States are  
 talking, preaching and urging that  
 some law be enacted by which the  
 manufacturing plants, of things not  
 essential to the war, be closed down  
 and the workers sent to the ship yards  
 to help build vessels to convey troops  
 and food to Europe. There are war  
 days and it is time to have a con-  
 structive city government, not a de-  
 structive one.

## LOYALTY RESOLUTION.

That the Janesville resolution passed  
 by the senate of the Wisconsin legis-  
 lature is causing more anxiety on the  
 part of the followers of the only Wis-  
 consin United States senator than they  
 care to acknowledge. While it causes  
 them personal pain to the nation at  
 large it has turned the tide of opinion  
 of Wisconsin and papers which have  
 criticized the state and the legislature  
 called it the breeding place of disloyal  
 sentiment and pointed to the one  
 United States senator as an example.  
 are now rejoiced that Wisconsin's  
 state senate has seen the light of day  
 and denounced the charges brought  
 against it. The passage of resolution  
 by the senate will live with the people.  
 This body was placed under a  
 cloud of the house on Saturday, only to  
 be released on a motion to adjourn to  
 meet again on Monday at ten, when  
 the bill was entered into again.  
 That the resolution should pass—must  
 pass as felt by all loyal citizens of  
 the state who are not tinged with a  
 bit of disloyal sentiment. It is to be  
 hoped the assembly will be able to  
 bring back enough members to as-  
 sume its passage and thus wind up the  
 present session.

## THE WILCOX BILL.

The proposal to pass over the head  
 of Governor Philipp his veto of the  
 Wilcox bill is one of the nonstrenu-  
 ties of the present special legislative  
 session. The bill as passed, contained  
 constitutional objections, and aside  
 from that was most unpatriotic in  
 spirit. It was legislation of class  
 against mass, in favor of the mass.  
 This is not a war of classes, despite  
 the fact the German "Junkers" in the  
 United States would make us believe  
 so. The rich man's son and the poor  
 man's son are in the ranks, in the  
 trenches, going over the top, or train-  
 ing on equal basis. This is socialism  
 and anti-war talk and yet this Wil-  
 cox bill would generate the same spirit.  
 The man with property, with a  
 business, is paying his share, and the  
 worker wants to pay his. If the great  
 state of Wisconsin wants a motto let  
 them take the one heard in Rock  
 county this week. "Your Share is  
 Fair." Let everyone pay their share  
 and not play class against mass as  
 this Wilcox bill does. It is to be  
 hoped the senate will not be foolish  
 enough to pass it over the governor's  
 veto merely to further the political  
 ends of a few men. That it all is a  
 political camouflage.

## THE SENATORSHIP.

First glance at the United States  
 senatorial primaries occur on  
 March 10th, would apparently indi-  
 cate that except for the three possi-  
 ble republican aspirants for office—  
 Lenroot, McGovern and Thompson—  
 there is no contest. The average citi-  
 zen has taken the McCarthy candi-  
 dacy, on the democratic ticket, as a  
 joke, but when you scratch down be-  
 neath the surface you find a remark-  
 able state of affairs. McCarthy's can-  
 didacy is genuine. He is backed by  
 the Society of Equity, by the Farmers'  
 Alliance, by many individual organi-  
 zations, Lutherans and others, as the  
 logical candidate for the nomination,  
 regardless of party. Persons who  
 study state politics are surprised at  
 the strength that McCarthy has shown  
 at the start and will be even more  
 surprised at the campaign going on.  
 That his candidacy will keep the dem-  
 ocrats in their own caucus to try and  
 save Davies is certain. That he will  
 draw largely from the vote that  
 Thompson might obtain is also cer-  
 tain, so that it may mean the elimi-  
 nation of that republican candidate  
 from consideration, leaving Lenroot or  
 McGovern to be chosen as the republi-  
 can nominee. It is possible McGovern  
 may withdraw from the meeting  
 in Milwaukee tonight, the loyalty  
 league, thus leaving the field prac-  
 tically open to Lenroot. That McCar-  
 thy's candidacy and his sudden dis-

play of strength is a surprise is ex-  
 pressing it mildly. Democratic lead-  
 ers call it a progressive republican  
 trick and the language some of the  
 leaders of democracy use is not print-  
 ing, they think of the situation.  
 It is also a disturbing element  
 in the Thompson campaign, the fly in  
 the La Follette ointment of blinding  
 the eyes of the voters. It has a  
 strange sting to it and it would not  
 be surprising that when the skies  
 clear away after the primary that the  
 three candidates in the field would be  
 Lenroot, republican; McCarthy, dem-  
 ocratic; and Berger, socialist. Do not  
 under-estimate Berger's strength. As  
 one man expressed it, "As a man he  
 is O. K., but for his political beliefs  
 and they are warped." However it is  
 going to be a merry race and Rock  
 county should rally behind Lenroot  
 and give him a rousing majority.

## BE READY.

The drive is on for the Rock county  
 war chest fund. "Your Share is Fair"  
 is something more than a slogan. It  
 is a truth, a real fact. Everyone can  
 do their individual share in this war  
 contribution for essentials for the  
 comfort and safety of the men who  
 are actually fighting our battle.  
 When each of these various commit-  
 tees come to you, be prompt in re-  
 sponse and make your donation, re-  
 knowing that "your share is fair."  
 This is the medium that both rich  
 and poor can pay their own share and  
 no one give more than they can af-  
 ford to keep up the pace and make a  
 showing. Just remember the slogan  
 again, "Your Share is Fair," and pay  
 up.

Fuel hoarders are going to have a  
 hard time this next winter. The man  
 who stores away a dozen or more  
 tons than he actually needs, because  
 he pays cash for it, during this win-  
 ter, will be closely watched and  
 held. When the time comes he  
 will be forced to disgorge for the benefit  
 of the less fortunate, who buy a  
 ton at a time. Certainly coal will  
 be at a premium, but there need be  
 no needless Mondays if care is taken  
 in advance to prevent fuel hoarding.

Governor Philipp gave the state a  
 surprise when he issued the call for  
 the senatorial election. While the  
 senate session calmly sat down on its  
 project to have appointive power they  
 never dreamed he would call a spe-  
 cial election. That was one thing  
 they were not prepared for. But he  
 did, and now they are all guessing  
 why they did not give him that ap-  
 pointive power. Playing politics in  
 war times is dangerous policy.

Every effort is being made to prop-  
 erly arm and equip the newly organ-  
 ized Wisconsin state guard. The for-  
 mation of the various companies is  
 an insurance for any community  
 against disloyalty and disturbances in  
 these troublesome days. Sort of an  
 insurance policy, as it were, and the  
 men who have enlisted in the service  
 are to be commended for their dis-  
 play of patriotism.

Why not plant one more acre of  
 what this year than you planned to,  
 you farm owners? Why not add an  
 acre of sugar beets? They produce  
 some three thousand pounds of sugar,  
 more than forty families might con-  
 sume, and these two acres will help  
 increase the visible supply of bread  
 and sugar in this country. Think it  
 over.

This country needs food right now.  
 Sugar sold a pound at a time, wheat  
 flour practically out of the market,  
 and chickens, except of the crowing  
 variety, unknown in the trade, makes  
 us sit and think what will the future  
 bring if we do not become a nation of  
 producers and not consumers.

Well, "over there" our American  
 boys showed the Hun they could fight  
 with bare fists just as well as they  
 could with weapons. We did not get  
 into this war for glory, but to save  
 the world, and from first impressions  
 the German emperor must know we  
 are in earnest.

Looking at it from an unbiased  
 standpoint, Wisconsin is a republican  
 state, so why not elect a republican  
 United States senator for a change?  
 Lenroot fits the bill and should have  
 the support of Rock county republi-  
 cans.

Certainly those March primaries  
 will be more interesting than ever  
 this year with this senatorial ques-  
 tion up for solution. Loyalty should  
 be the requirement no matter which  
 is elected.

The war gardens now need atten-  
 tion. Enlist in this great army of  
 workers to help produce food sup-  
 plies.

Cliffs of Scotland guard them well.  
 Shield them from the billard's rage,  
 Let the granite towers tell  
 That those sleeping heroes fell  
 In the service of their age.

Cliffs of Scotland, they were ours!  
 Now forever they are thine!  
 Guard them with your mighty pow-

 Barran are your rocks of flowers,  
 But their splendor makes them fine.

Cliffs of Scotland, at your base  
 Freedom's finer children lie.  
 Keep them in your strong embrace!  
 Tell the young of every race  
 Such as they shall never die.

Cliffs of Scotland, never more  
 Men shall think you stern and cold,  
 Splendor now has found your shore,  
 Unto you the ocean bore  
 Freedom's precious sons to hold.

 First two I knit, then two I pur-

 Now joyful paeans to the heavens I

## Evansville News

Mass Meeting Held Saturday Evening.  
 Evansville, March 4.—A large audi-  
 ence gathered at the Magee opera  
 house Saturday evening to attend the  
 war fund meeting. This meeting was  
 arranged very hurriedly—only Sat-  
 urday in fact—and was only advertised  
 on that day. Interesting addresses  
 were given by M. C. Mount of Janes-  
 ville and other speakers, and the  
 work of the evening was the raising  
 of money for the war fund. The  
 meeting of the captains and lieuten-  
 ants of the drive for Evansville met  
 yesterday afternoon, and today the  
 work will be begun in earnest.  
 Another Victory for H. S. Basket-  
 ball Team.

Saturday night was basketball night  
 at Beloit. When three interesting  
 games were pulled off at the college  
 gymnasium, and was of extreme in-  
 terest to all basketball fans. The first  
 game was between the second team of  
 the Beloit high school and the team  
 from the vocational school, in which  
 the vocational team was beaten.  
 The third or last game was be-  
 tween the Camp Grant and Fair-  
 banks-Morse teams. This was a most  
 interesting and exciting game, the  
 exceedingly close score—32 to 30—in  
 favor of the Fairbanks team.

The second or middle game was be-  
 tween the first team of the Beloit  
 high school and our high school team.  
 This was also a stirring game and re-  
 sulted in a score of 10 to 4 in favor of  
 Evansville. Our team was in good  
 form and put up a good game. H.  
 Hubbard, right forward, made one  
 basket; S. Cain, left forward, one bas-  
 ket; and E. Tolles, center, made two  
 baskets and two free throws out of  
 seven shots. Band played well. The  
 guard and Martin Colory left guard.  
 P. McMurray and L. Roberts were the  
 substitutes. The line-up for Beloit  
 was as follows: Left, right, center,  
 forward, H. Fox, left forward, who made  
 one basket; Jenkins, center; Hoff,  
 right guard; Prock left guard; Lerke  
 and Strong, substitutes. The Beloit  
 team was called for three technical  
 and four personal fouls, the Evans-  
 ville team for four technical and one  
 personal foul. Lettice of Beloit re-  
 ferred the game. Time keeper for

Where to Keep Sugar.  
To keep powdered sugar from hardening get only 25 cents' worth at a time, put in a paraffin-lined oatmeal carton, put two thicknesses of paraffin paper on the top, press the lid down firmly.

This dress may look a bit "dotty," but it's smart just the same. It has what they call a tunic and it will be all the cry this summer. Blue and white polka dot voile is the material and the tunic part is in white with blue dots on a field of blue. The sleeves are completely white and there is a very attractive belt of white satin.

## STREET CAR COMPANY ASKS FOR INCREASE IN PASSENGER RATES

Cases Will Be Heard Before State Railroad Commission at the City Hall in This City March 18th.

At a hearing in the city hall on the 18th of this month at ten o'clock, before the railroad commission of Wisconsin, the application of the Janesville Traction company to increase its passenger rates will be taken up. W. H. Dougherty, attorney for the petitioners, stated this morning that the price of five cents charged for each passenger does not bring in enough revenue, and amount of the increase desired has not been determined by the company but will be announced shortly.

The petition for the hearing which was made February 23, follows:

The petition of the above-named Janesville Traction company respectfully represents and shows:

1. That it is a corporation organized under the laws of the state of Wisconsin.
2. That its principal place of business is in Janesville, Wisconsin, and that it is engaged in the management and operation of a street railway company in said city of Janesville, and that as such public utility it is subject to the provisions of the laws of said state regulating public utilities, that it operates said business under an indeterminate permit heretofore granted by the railroad commission of Wisconsin.

3. That under the provision of Section 1971m-106 of the statutes of Wisconsin, being a part of the so-called public utility law, it is unlawful for the Janesville Traction company to demand, collect or receive a greater compensation for any services than the charge made by it for the lowest schedule of rates for the same service on the first day of April, 1917.

4. That on the said first day of April it had in effect the following schedule of rates and charges, to wit: a straight five cent fare with transfers over all of its lines, and as this schedule is informed and believed to be the lowest schedule of rates for the same service on the first day of April, 1917.

5. That it applies to this commission for authority to increase its rates for the reason that its revenues are not sufficient to pay its operating expenses together with its interest on its bonded debt, its unfunded debt and the interest on the same, and that it has attached and marked Exhibit A a summary of revenues and operating expenses for the period commencing November 1, 1916, and ending November 30, 1917; that there is also attached hereto and marked Exhibit B a statement in the nature of a balance sheet up to November 30, 1917; that there is hereby attached and marked Exhibit C a statement of plant investment up to November 30, 1917; that there is hereto attached and marked Exhibit D an analysis of the profit and loss of said company, and that the petitioners to annexed and marked Exhibit E a statement of accrued and reserve accounts.

Wherefore the said Janesville Traction company prays that after due hearing and investigation the railroad commission shall order granting the application herein and establish the rates of fare and charges as may be found to be equitable in the premises.

Dated at Janesville, Wisconsin, this 23d day of February, 1918.

## OBITUARY

**Patrick Broderick.** An old and respected citizen of Janesville died at Mercy hospital Sunday at 1:30 p. m. Mr. Broderick would have been seventy-four years of age the seventeenth of this month. He was a native of Ireland and had ten children to mourn his loss. They are: Mrs. Mike Carroll and Mrs. Irwin Graves of Albany, William of Dayton, Mrs. Wm. Sage, Frank J. of Hammond, Leo, Emma and Kathryn of this city. The funeral will be held Wednesday morning at nine o'clock from St. Patrick's church. Interment will be in Mt. Olivet cemetery.

**Thomas Whalen.** Death Sunday called for the spirit of Thomas Whalen, at his home, 222 Elm street, after a short illness of pneumonia. Thomas Whalen was born in January, 1867, in Janesville, and lived here all his life. Ten years ago he was united in marriage to Miss Lou Barry, who mourns his untimely demise. Besides his wife three sisters and one brother also survive. Mrs. John Delaney, Mrs. John McCarthy, Miss Cecelia Whalen, and John Whalen. Mr. Whalen was a member of the local Foresters lodge and a member of the St. Patrick's church. Funeral services will be held Tuesday morning at nine o'clock from the St. Patrick's church. Interment will be made in Mount Olivet cemetery.

**J. W. McCue.** Word was received this morning of the death of J. W. McCue in Milwaukee last Sunday. Mr. McCue was well known here and his many friends will be grieved to hear of his demise. The remains will arrive here tomorrow noon and will be taken to the home of Michael McIlrann, 752 Jackson street, his brother-in-law. Funeral notice will be given later.

**Rachel Miles Lindley.** A. M. Glenn has received word of the death of his sister, Rachel Lindley, of Bozeman, Montana. Mrs. Lindley came to Janesville in 1885, the bride of Capt. Henry Miles, and spent her early married life in this vicinity, and has many friends in Rock County, who will be grieved to hear of her death. After the death of her husband she was married to J. M. Lindley of Bozeman, Montana, where she has made her home recently. Her sister, Mrs. Hannah Bear, formerly of Janesville, has been her hostess and cared for her in her sickness the past two years.

**Ralph Kuhlow.** Ralph Kuhlow, the small son of Mr. and Mrs. F. Kuhlow, died Sunday evening at the home of his parents in Clinton, Wis., on the fourth anniversary of his birth, after an illness of but one week's duration. He was born to mourn his loss besides his father and mother, four sisters and two brothers—Ruth, Vernice, Grace, and Dorothy. Harold and Verne Kuhlow, all of Clinton. His grandparents, Mr. and Mrs. August Zahn, and Mr. and Mrs. W. M. Kuhlow of this city. The body will be brought to Janesville, Tuesday morning at eleven o'clock and taken to the home of Mr. and Mrs. August Zahn, 419 Elm street. The funeral will be held Wednesday afternoon at two o'clock from the home and at two-thirty from the St. Paul Lutheran church. Rev. D. A. L. Treu will officiate. Interment will be made in the Oak Hill cemetery.

**Ernest Michaelis.** Ernest Michaelis, the nine years old son of Mr. and Mrs. Michaelis of Neenah, passed away Sunday evening at the home of his aunt, Mrs. Doran, in the town of Waubesa. The remains were taken to Neenah.

## WAR FUND WORKERS MET WITH SUCCESS DURING WORK TODAY

Reports From All Sections of the County Show That People Are Responding Generously To Fund.

"Your share is fair," the slogan adopted by the leaders of the war fund drive as their guide throughout the entire campaign, found its way to all parts of Rock county today when the five hundred captains, lieutenants and privates of the various teams he their work of canvassing every individual in the county who owns property or has an income, at nine o'clock this morning. That the campaign was more than willing to contribute to the fund which will bring success to the boys at the front. Most of the men at noon today reported that they had yet to "turn in" their work of canvassing every individual in the county who owns property or has an income, at nine o'clock this morning. ## FARMERS PREDICT HIGHER MILK PRICES

Milk Producers Claim That Unless Given a Raise in Price Citizens Will Pay 15 Cents a Quart.

With the present price of milk at 33.1 per hundred for March, the residents of Janesville will unless some agreement is reached, be required to pay at least 15 cents a quart for milk within the next sixty days. This is the statement that John L. Fisher made this morning in talking over the milk situation in Rock County. The present price was set by Federal Food Administrator Wheeler of Illinois at a conference held in Chicago. Mr. Wheeler, after a conference with Mr. W. S. Lamb, of Mr. Hoover's staff, who came direct from Washington to attend the meeting, claimed that it was a fair price. Rock County farmers are very dissatisfied with the price and several protest meetings have been held in the past week at different cities in Rock County. A meeting was held Saturday at Stoughton and many of the farmers in attendance threatened to quit producing milk or reduce their herds unless given a better price.

Although the March price of milk is 27 cents higher than that paid in February the farmers still claim that they are losing money and that their milk checks are not equal to their feed bills. At the meeting held in Chicago it was proven that the farmers lost 22 cents per hundred on milk in December and 8 cents per hundred in February. Mr. Fisher further stated that several Rock County farmers have already reduced their herds and that two cars of cows were shipped from Footville last Thursday.

Another protest meeting will be held in Whitesburg tomorrow afternoon and on Thursday a meeting will be held in Walworth. The farmers insist that they must have more money for their milk and Mr. Fisher was very emphatic in stating that the farmers would not stand for the treatment they are receiving and that unless they get a better price for their milk in the near future they will all reduce their herds and the citizens of this city will have to pay 15 cents a quart for their milk.

Mr. George Woodruff, secretary of the local Milk Producers' Association, in a statement issued yesterday, claimed that although the present March price is an increase over what the farmers have been receiving, that they are still losing money and that they will have to have a still greater increase. Mr. Woodruff stated that the April price was to be set by Mr. W. S. Lamb on the 15th of March and that unless the price is higher than the present that many of the farmers will carry out their threat and reduce their herds or quit producing milk.

## Advance the Result of Experience.

The world's advance is due only to the hopes, the plans, the progress and the work of living men and women who have tasted of the waters of life for themselves and know what it is to live and are determined that the rest of the world shall have life more abundantly.

## EXCHANGE STORE AND OFFICERS' CLUB ARE ADDITIONS AT GRANT

Camp Grant, Ill., March 4.—Camp Grant is now in possession of a camp exchange. Together with an officers' club it occupies the old headquarters barn, now removed and remodeled a short distance from the division headquarters next to the camp library. Authority for the new establishment came in a general order the war department last December.

The ground floor of the building is a general store. In addition to the ordinary line of goods carried by the regimental exchanges, overcoats, uniforms, rain coats, trench, dress and rubber boots, hats and insignia are sold. In one corner is a fine cigar case and a humidor.

A billiard parlor located outside of the camp has been bought out to furnish part of the second floor. There are two pool tables and one billiard table. Upholstered seats line the walls and corners and at the north end is a large fire place.

The walls of the whole building have been lined with beaver boards and the interior color is a warm tan paneled with cedar strips. The effect of the whole building is comfortable and homelike.

This is the first time the camp has offered a place in camp where officers can meet socially. And it will attempt to supply the officers of the camp with all their equipment at a low figure. No attempt will be made to make money for the exchange. This is unlike the regimental exchanges, in that part of the proceeds go to the companies' fund. The regiment in which the exchange happens to be. Recently the exchanges in camp paid a dividend to the company funds of \$12.26.44. Further dividends are expected in the near future.

Prices at the regimental exchanges are low on account of the fact that all purchases by the camp exchange officers are made from the original producer. But during the past winter profits have become lower than should be expected as the exchanges are fitted to supply a much larger number of men than have been in camp during the winter.

A central warehouse is maintained with a large stock of merchandise and the seventeen stores now operating in camp draw their wares from this wares from this warehouse.

## AMUSEMENTS

Notices Furnished By The Theaters.

Colored Minstrels Are the Best. The modern minstrelsy evolved from the colored race. The negro, if he can be restrained from becoming self-conscious, makes the best minstrel man. Any person is sure of a good laugh if he can but be around in group of negroes thirty minutes without the latter knowing they are near because the colored man is then perfectly natural.

There have been many colored minstrel organizations which were unsatisfactory in their entertainment because the colored performers were self-conscious and did not act natural. Mr. R. M. Harvey, a well known circus man, undertook the task of assembling a company of clever colored people who are not posers, who were capable of 'always remaining natural—even on the stage.

# Ashcraft's Annual March Sale of Better Furniture

Time to mention only a few of the great values offered during this great sale.

## Important!

No one who needs furniture will care to miss the advantages of this, our greatest annual sale—and judging from the numbers attending it seems hardly likely that anyone is going to overlook it.

It is well to bear in mind that this sale is an annual event at Ashcraft's. The fact that people invariably come back to Ashcraft's after shopping around, illustrates the point.

## Daughter's Bedroom

How She Loves to Fuss Over It and Fix It Up

Don't stint your daughter's room. She has a girl's love of pretty things, and she just longs for a place where she can bring her girl friends for girlish confidences and good times without being ashamed of the surroundings. Make it one of the prettiest rooms in the house and she'll never want to leave the "old home."

**\$125.00**

Such a Suite as the Queen Anne shown will delight her heart, and it's not at all expensive. Let her choose the wood she likes, either Mahogany or Walnut and a rug of either blue or old rose and dainty Madras curtains to match. Try it to-day and it will simply do your heart good to see how happy she will be.

A great many other suits to select from ranging in price \$80, \$40, \$50, \$75, \$100; all very unusual bargains now.

## Heart and Home Problems

BY ELIZABETH THOMPSON  
LETTERS MAY BE ADDRESSED TO MRS. THOMPSON, IN CARE OF THE GAZETTE

Dear Mrs. Thompson: (1) Do you think it is proper for three girls and two boys to ride in a two-passenger car?

(2) Should a girl allow her boy cousin to kiss her?

(3) What do you think of a boy who will take a girl out riding and then tell her that he is not in love with her?

(4) Do you think it is proper for a girl to go to a party and then return home without a chaperon?

(5) If a girl goes to a party and then returns home without a chaperon, is it improper?

(6) If a girl goes to a party and then returns home without a chaperon, is it improper?

(7) If a girl goes to a party and then returns home without a chaperon, is it improper?

(8) If a girl goes to a party and then returns home without a chaperon, is it improper?

(9) If a girl goes to a party and then returns home without a chaperon, is it improper?

(10) If a girl goes to a party and then returns home without a chaperon, is it improper?

Dear Mrs. Thompson: I am a girl sixteen years old and I have worked ever since I was fifteen. I have gone to school mornings and to work in the afternoon most of the time. I am now in my senior year at school. Do you think I would undertake too much to go to college? My mother and father and I have saved three hundred dollars toward such a course. I am told it won't go very far, but I am anxious to use what I have that way.

FRANCES.

Send the money for a college education as far as the money reaches. You will never regret the time you spend on it.

## EVERYDAY ETIQUETTE

For a gentleman to pay the carfare of a lady who is not in his especial charge is to take a liberty which she is not at all obliged to accept. If she returns the fare, he must take it without protest.

Mr. Smith: There is but one course for you to follow. You must go to the back door when you call upon the young lady who is employed as a maid. The house in which she lives is not hers; she occupies an inferior position in the household; and in all the city homes where servants are employed it is distinctly understood that maids receive their guests at the kitchen door, where a special sitting room is provided for them. Your social position has nothing to do with the case. If you should go to the same house to call upon them, you would be in the same position as the maid.

## HEALTH TALKS

BY WILLIAM BRADY, M. D.  
LETTERS MAY BE ADDRESSED TO DR. BRADY, IN CARE OF THE GAZETTE

## THE RECORD FOR HOLDING THE BREATH

The eminent author of this department (or so he likes to call himself, though he has never authored anything to speak of) takes good care of his metabolism, strives to keep his diet and exercise ration well balanced in order to oxidize and eliminate toxic wastes and feel good all the time. As a consequence he has fair endurance. He can hold his breath—few readers will believe this, yet it is true—without a minute without preparation. The average healthy individual can hold his breath 40 seconds. An individual with autointoxication, acidosis, heart muscle degeneration or arteriosclerosis has to come up for air in something less than thirty seconds. A student out in California held his breath over eight minutes after filling up his system with oxygen from a tank; and another in Massachusetts, a state where taciturnity is a virtue, held his breath thirteen minutes after smaller preparation.

But Minnesota baby has all these pikers beaten several verses. Her mother is authority for it: "What can I do to break my baby of the habit of holding his breath? He is one and one-half years old and has held his breath since he was six months old. Seems to get worse all the time, that is, it is harder to make him resume breathing again. He does it when getting hurt, mostly, but sometimes when irritated or angry, especially if he is tired. Some people say it is just temper and that he ought to be whipped hard for it. Should I whip him when he is holding his breath, or should I do it afterward? He seems so young, I should think too young to realize why I am whipping him. I have never heard of a child doing this, holding the breath, but am told by some people that such a thing can occur. The baby is very good and seems quite healthy every other way. Throwing

cold water in his face used to bring him out of it, but now seems to do no good. Please let me know if he is in any danger to his life and what I ought to do."

Even if the baby has held his breath a year, the mother need not worry. The reason he holds it is to make her worry. If he sees she isn't worried in the least, he will call the game a lie and quit, after a few scoreless innings. At the age of a year a baby does a lot of cool calculating. He reckons he can get what he wants when he wants it if he impresses his mother sufficiently. So if other means fail, the little dear holds his breath.

Now any one who would have a baby whizzer for such a perfectly legitimate trick is no good advisor for a mother to consult.

Let the baby go on holding his breath, but at the same time let him see you are not interested in his performance, and before he has held it another six months he will be ready to quit that trick and think up a better one.

(\*Of course this is not the place to speak of "Personal Health.")

QUESTIONS AND ANSWERS

Should a Lady Smoke a Pipe?

Dear Doctor, I want to ask you—Answer—No, Miss L., it is not exactly good form for a lady to smoke anything, and least a pipe. I am a man of simple tastes and no burdened load of dignity, but I just can't bear to think of a lady smoking a pipe. She may vote, play baseball, but she can't smoke and still pose as a member of the fair sex.

Hot Water Sanitary

Kindly tell me what to do with the water in a kitchen hot water tank if it is poisonous or harmful if one uses it for all sanitary purposes. (R. Y.)

Answer—No, it is as wholesome to drink as before it entered the tank.

TRAINING SCHOOL NOTES

No vacation: The Training School will continue in session from now on until Thursday, June 6th, thus closing two weeks earlier than originally planned. The school will also run on seven Saturdays, as follows: March 14th, March 21st, March 28th, April 4th, April 11th, April 18th, and June 1st. The Saturday classes will begin at eight-thirty and continue steadily until one-thirty.

Junior Red Cross Officers: The officers of the Junior Red Cross are as follows: president, Harriet Donnelly; footville; secretary, Dora Conlon; Beloit; treasurer, Miss Jacobson. All of the students in the district have paid in their membership so that there is a record of one hundred per cent.

Official visitor from Dane County: Miss Grace Wyman, one of the special visiting teachers of Dane county, spent part of two days visiting the training school recently. Miss Wyman is looking for teachers for the rural schools of her district for next year. Miss Wyman has a national reputation as the teacher of a country school near Madison. This school achieved fame under Miss Wyman's charge, especially in cooking, sewing, manual training and commercial work. As a result of her efforts the school became widely known, and some four or five years ago the university donated an entire bulletin describing and illustrating Miss Wyman's work. Miss Wyman has her eye on some of the best girls in the senior class and she will offer them sixty dollars a month.

New students: It is expected that some additional young women will take up the work for the second semester. Miss Anne McGuire of Footville, begins her work as a member of the senior class on Monday. Students will find it to their advantage to enter now, as they can easily secure positions during the middle of next year.

Summer session: Superintendent Antiel will conduct a summer session of the training school beginning on Monday, June 17th, and continuing until Friday, July 20th. It is expected that a good number will enter the school on June 17th. The county superintendent will give the preference in certification to those who go to the summer session.

Meeting of county teachers: The county meeting of teachers will occur on Saturday, April 6th, providing the weather is favorable. The meeting will be held at the county school building, and will be held on Saturday, April 6th, at 10 o'clock. The meeting will be held on Saturday, April 6th, at 10 o'clock. The meeting will be held on Saturday, April 6th, at 10 o'clock.

Savings stamps: There has been a good sale of savings stamps in the training school among teachers and students. The model school also has a good record in this regard. The spirit of patriotic service is the dominating one. Recently the literary society devoted an entire program to a consideration of the war, and the students have been very active in the sale of savings stamps.

Principal Lowth offered position: President M. A. Brannon of Beloit college, offered Mr. Lowth, during the past week, the position of professor of pedagogy for elementary teachers in the summer session of the college. Principal Lowth was obliged to refuse the offer because of the fact that the training school will continue during the summer session this year in order to supply enough teachers for the country schools of the county.

Training school board meets: The regular annual session of the training school board will convene on Saturday afternoon at the school building after a dinner at twelve served by the domestic science class. The board transacted the usual business, adjusting the budget, electing teachers, etc. Superintendent J. P. Waddell of Evansville, ate dinner with the board and the training school teachers.

Teachers elected: At a meeting of the board on Friday, the following teachers were elected for another year: principal, Frank J. Lowth; first

## Catarrh is a Real Enemy and Requires Vigorous Treatment

Do Not Neglect It.

When you use medicated sprays, atomizers and douches for your Catarrh, you may succeed in unstopping the choked-up air passages for the time being, but this annoying condition returns, and you have to do the same thing over and over again.

Catarrh has never yet been cured by these local applications. Have you ever experienced any real benefit from such treatment?

assistant, Ella J. Jacobson; model school teacher, Belle N. Thompson. Miss Florida O. Luce, who has been on the faculty for several years, will sever her connections with the institution in June in order to take up school work in Denver, Colorado. Mr. Lowth and Miss Jacobson were also elected to conduct the six-weeks summer session.

Teachers in Dane county: Miss Genevieve Kealy who graduated about a month ago, is now teaching a country school in Dane county at a salary of sixty dollars per month. Helen Blier, a classmate, expects soon to begin work in Dane county at a salary of fifty-five dollars per month.

March issue of the Rock County Educational Bulletin is a double number, and it contains a great deal of material of interest to country teachers. It should give attention. A suggestive outline on language prepared at the training school should prove helpful to teachers in the service. The Bulletin also contains several matters of importance.

Faculty and seniors to Madison for commencement: Instead of the usual program of speaking and music the program of the commencement exercises this year will go to Madison on Wednesday, June 5th, to see the capitol building, university buildings, etc. The regular alumni banquet will occur at which time Superintendent Antiel will present the diplomas to the graduates.

Cadet work in country schools: The seniors will do their cadet work in country schools this year during the week of April 22-24. The country schools for this line of work have already been selected and plans are maturing.

Sale of thrift stamps: The sale of thrift stamps in the Jefferson school up to date are as follows: Kindergarten, \$8.50; first grade, \$4.50; second grade, \$2.00; third grade, \$5.75; fourth grade, \$52.67; fifth grade, \$24.60; sixth grade, \$40.80; seventh grade, \$47.74; eighth grade, \$11.50; model school, \$69.25.

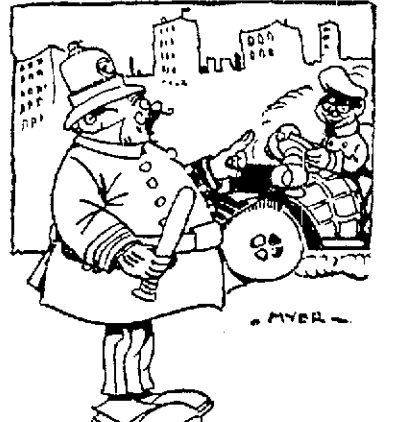

Honor roll: The following pupils in the model school were neither absent nor tardy from September 1st to February 15th: Evelyn Binewies, Barbara Muegler, Walter Schwegler, Jack Whiffen, Pearl Dockhorn, Mildred Malmberg, Alice Kimball, Genevieve Kealy, Helen Blier, Ethel Davis, Omaha Conlon and Elva Bernay. Miss Kealy and Miss Blier have gone to teaching and Miss Blier will start soon.

Grades in model school: In accordance with a vote of the training school board the model school enrollment next year will comprise only the first three or four grades with front eight to ten pupils to a grade.

Faculty visits schools: During the past month the members of the faculty have been visiting schools at Jefferson, Stoughton, Madison, Richland Center, Whitewater, Columbus and Milwaukee. Such visitation is required by the board.

## SIDE TALKS

—BY— RUTH CAMERON

"If they're neat they're cranky."

If they are neat and particular, they're usually cranky, and if they are pleasant and easy going they're usually a bit slack.

This dictum was uttered by a friend mine during a conversation on—only you can guess what.

The maid question, of course.

She had just acquired a new maid who was meticulously neat and particular about her kitchen, and she was in the process of cleaning, and very dainty about her table service.

My friend had been delighted with her because at first, as the maid who had reported had been delightfully neat.

The other side of Her Qualities

And then she discovered that the new maid did not like children, and she was very irritable if the meals were ever delayed, and thrown entirely out of her stride if unexpected company appeared (as they sometimes do unless you deliberately establish a reputation for in hospitality).

The result of this discovery was her dictum. I think it is a very wise conclusion, don't you?

And I think maids are by no means the only ones to which it applies.

I Do Not Advise Being Run by Clockwork

When I went to a certain place I used to visit two friends who both lived in that town. At one house everything was always in the pink of order, meals were daintily served, and always on time, the house seemed run by clockwork. I liked the order and the repose, but I did not like the clockwork. For, alas, the guests were supposed to be run in the same

## EVERYONE URGED TO USE OLEOMARGARINE

TO release for use abroad those fats which best stand shipment, American households are asked to use alternatives.

Last year we had to ship to our Allies thirteen times as much butter and dairy products as our average yearly shipment for the three preceding years. Hence, the enormously increased need for us all to use more Oleomargarine on our tables and in our kitchens. Therefore, to the patriotic housewife, the important question is, "How shall I know which brands are best?" Solve the problem by using

"What would you do?" he cried to them. "You know me. You see me now. I have been done almost to death by those you would aid. Are you yourselves, but not against your king. We have sworn to stand together. I call on you, men of my corps, to follow me. There are those who thought will murder the little king and put King Mob on the throne. And they are those who have tortured me. Look at me! This they have done to me. He tore the bandage off, and showed his scarred head. "Quick!" he cried. "I know where they hide, these spawn of hell. Who will follow me? To the king!"

"To the king!" They took up the cry, a few at first, then all of them. More than his words, the giant and wounded figure of Haackel in the cart fought for him. He roared before them. Two leaped up and stood him, finally, indeed, took him on their shoulders, and led the way. They made a wedge of men, and pushed through the mob.

"To the little king!" was the cry they raised, and ran, a flying wedge of white, fantastic figures. Those who were unarmed seized weapons from the crowd as they passed. Urged by Haackel, they ran through the streets. Unchecked, it was because he had known that they had done away with him. His cunning, working now with almost unnatural activity, drew ahead to the house in the Road of the Good Children, and to what might be unchecking there. His eyes burned. Now at last he would thwart them, unless— Just before they turned into the street, a horseman had dashed out of it and dived himself out of the saddle. The horse was bolted, but it opened to his rider, and Nikky faced the confederate, Nikky, with a drawn revolver in his hand, and a face deathly white.

He had had no time to fire, no time even to speak. The revolver flew out of his hand at one blow from the hail-like arms of the confederate. Behind him somewhere was coming, Nikky knew, a detachment of cavalry. But he had understood them, riding frantically, had barked orders and dashes across the park. He must hold this man until they came.

## DOCTOR SAYS VINOL IS THE BEST TONIC

Honest Opinion Doctor Gave His Patient.

Bedford, Ohio.—"I was in a pitiful condition, weak, nervous and run down so I could not do my housework. I had doctor for years and tried everything under the sun. A friend told me about Vinol. I asked my doctor about it and he replied, 'It certainly is the best medicine that can be had today. I couldn't give you any better. I took it and today I am as well and strong as any woman could wish to be, and it was Vinol that saved me.' Mrs. Frank A. Hervey, Ave. St., Bedford, Ohio.

We guarantee this famous cod liver and iron tonic for all such conditions.

Smith Bros. Co., Janesville, Wis., is sold in Janesville by W. J. Smith, and at the best drug store in every town and city in the country.

## STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles. If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't care feeding, no ambition or energy, troubled with undigested foods, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without gripping, cramps or pain. Take one or two at bedtime for quick relief, so you can eat what you like. 4, 10c and 25c per box. All druggists.

clerge, he yet listened for them. From the first he knew it was a losing battle. He had lost before. But he fought fiercely, with the strength of a dozen. His frenzy was equalled by that of the other man, and his weight was less by a half. He went down finally and lay still, a battered, twisted figure.

But Black Humbert, breathing hard, had heard sounds in the street, and put up the chain. He stood at bay, a huge, shaken figure at the foot of the stone staircase. He was for flight now. But surely—outside at the door some one gave the secret knock of the tribunal, and followed it by the password. He breathed again. Friends, of course, come for the ammunition. But to be certain, he went to the window of his bureau, and looked out through the bars. Students!

"Coming!" he called. And kicked at Nikky's quiet figure as he passed it. Then he unbolted the door, dropped the chain, and opened the door.

Standing before him, backed by a great crowd of fantastic figures, was Haackel.

They did not kill him at once. At the points of a dozen bayonets, intended for vastly different work, they forced him up the staircase, flight after flight. At first he cried pitifully that he knew nothing of the royal child, then he tried to barter what he knew for his life. They jeered at him, picked him shamefully from behind with daggers.

At the top of the last flight he turned and faced them, "Gentlemen, friends!" he implored. "I have done him no harm. It was never in my mind to do him an injury. I—"

"He is in the room where you kept me?" asked Haackel, in a low voice.

"He is there, and safe."

Then Haackel killed him. He struck him with a dagger, and his great body

fell on the stairs. He was still moving and groaning, as they swarmed over him.

Haackel faced the crowd. "There are others," he said. "I know them all. When we have finished here, we will go on."

They were fearful of frightening the little king and only two went back, with the key that Haackel had taken from the body of Black Humbert. They unlocked the door of the back room, to find his majesty sitting on a chair, with a rather moist handkerchief in his hand. He was not at all frightened, however, and was weeping for his grandfather.

"Has the carriage come?" he demanded. "I am waiting for a carriage."

They assured him that a carriage was on the way, and were very much at a loss.

"I would like to go quickly," he said. "I am afraid—my grandfather—Nikky."

For there stood Nikky in the doorway, a staggering, white-lipped Nikky. He was not too weak to pick the child up, however, and carry him to the head of the stairs. They had moved the body of the confederate, by his order. So he stood there, the boy in his arms, and the students, only an hour before in revolt against him, cheered mightily.

They met the detachment of cavalry at the door, and thus, in state, rode back to the palace where he was to rule, King Otto the Ninth. A very sad little king, for Nikky had answered his question honestly. A king who mopped his eyes with a very dirty handkerchief. A weary little king, too, with already a touch of indigestion!

Behind them, in the house on the

Road of the Good Children, Haackel, in an access of fury, ordered the body of the confederate flung from a window. It lay below, a twisted and shapeless thing, beside the pieces of old Adelbert's broken sword.

## CHAPTER XX.

### The Lincoln Penny.

And so, at last, King Otto the Ninth reached his palace, and was hurried up the stairs to the room where the council waited. Not at all a royal figure, but a tired little boy in gray trousers, a short black Eton coat, and a rolling collar which had once been white.

He gave one glance around the room. "My grandfather!" he said. And fell to crying into his dirty pocket-handkerchief.

The chancellor eyed grimly from under his shaggy brows the disreputable figure of his sovereign. Then he went toward him, and put his hand on his head.

"He was very eager for this rest, Otto," he said.

Then he knelt and very solemnly and with infinite tenderness, he kissed the small, not overclean, hand.

One by one the council did the same thing.

King Otto straightened his shoulders and put away the handkerchief. It had occurred to him that he was a man now and must act a man's part in the world.

"May I see him?" he asked. "I—didn't see him before."

"Your people are waiting, sire," the chancellor said gravely. "To a ruler, his people must come first."

And so, in the clear light from the room behind him, Otto the Ninth first stood before his people. They looked up, and hard eyes grew soft, tense muscles relaxed. They saw the erectness of the small figure, the steadiness of the blue eyes that had fought back their tears, the honesty and fire and courage of this small boy who was the king.

Let such of the revolutionists as remained scream before the parliament house. Let the flames burn and the drums beat. The solid citizens, the great mass of the people, looked up at the king and cheered mightily. Revolution had that night received its death blow at the hands of a child. The mob prepared to go home to bed.

While King Otto stood on the balcony, down below in the crowd an American woman looked up, and suddenly caught her husband by the arm.

"Robert," she said. "Robert, it is Bobby's little friend!"

"Nonsense!" he retorted. "It's rather dramatic, isn't it? Nothing like this at home! See, they've crowded him already."

But Bobby's mother looked with the clear eyes of most women, and all mothers.

"They have not crowded him," she said, smiling with tears in her eyes. "The absurd little king! They have forgotten to take off his paper crown!"

The dead king lay in state in the royal chapel. Tull candles burned at his head and feet, set in long black standards. His uniform lay at his feet, his cap, his sword. The flag of his country was draped across him. He looked very rested.

In a small private chapel nearby lay old Adelbert. They could not do him too much honor. He, too, looked rested, and he, too, was covered by the flag, and no one would have guessed that a part of him had died long before, and lay buried on a battlefield. It was, unfortunately, his old uniform that he wore. They had added his regimental flag to the national one, and on it they had set his shabby cap. He, too, might have been a king. There were candles at his head and feet, also; but alas, he had now no sword.

Thus it happened that old Adelbert the traitor lay in state in the palace, and that monks, in long brown robes, knelt and prayed by him. Perhaps he needed their prayers. But perhaps, in the great accounting, things are balanced up, the good against the bad. In that case, who knows?

"My poor man, how did you happen to come here?" asked the sympathetic prison visitor. "Overconfidence caused my ruin, ma'am," replied the

international crook. "But I don't understand." "I had been doing so well I got an idea that all the smart detectives were in books."

"That boy will be the death of me some day," declared the head of the family.

"I'm sure I don't know where he gets all his impudence and self-assurance; surely not from me. He returned home from school the other day to spend the holidays, as I supposed, and entering my office, he threw his hat on the floor, selected an easy chair, put his feet on my desk, lit a cigar, inhaled a few puffs, and then, turning languidly to me, he drawled:

"I say, dad, do you remember the time you were expelled from school?"

"I did. There was no use denying it, for one day, in a burst of confidence, I had told him of my escapades as a boy and lived to regret that I had been so indiscreet."

"What do you mean, you young rascal?" I roared.

"Oh," said he easily, "I've been expelled, too. Astonishing, isn't it, dad, how such things will run in a family."

"What's the matter?" asked the young dentist of a patient who seemed extremely pessimistic regarding his chances.

"Oh," said he, "I don't know, doctor; but I feel that I shall never pull through here."

"Nonsense, my boy, nonsense! Why, your case is absolutely the same as the illness I had a year ago. Yet look at me—strong and hearty as ever!"

"Yes," replied the patient, "but then I expect you had a good doctor."

## DEHAVAN

Delavan, Mar. 2.—The marriage of Miss Gladys Mann and John Payne was solemnized this morning at St. Andrew's rectory by Rev. John Buckley. Newville, March 2.—Mrs. Cook received the sad news of the death of her little niece, Elizabeth Hanson of Edgerton, Tuesday.

Mr. Bates is spending some time at George Kothlow's.

Miss Lucile Earle went to her home in Porters on Wednesday, after spending a long time caring for Mr. Kothlow.

The Red Cross supper drew a good sized crowd to the hall Wednesday evening. Quite a sum was realized for supplies and new members were added to the list, so that there are now twenty-nine. The next meeting will be Wednesday, March 6, at Mrs. Cook's. Material will be ready for sewing, and it is hoped there will be a large attendance.

The new tenant has moved to the Clark farm.

Miss Violet Park came from Edgerton to attend the Red Cross supper.

## Something New in Town From "The Land of the Long Leaf Pine"

A Remarkable Treatment From North Carolina That Relieves Croup and Cold Troubles Without the Necessity of Internal "Dosing"—Applied Externally, It is Inhaled as a Vapor and also Absorbed Through the Skin.

Local Druggists Are Selling 25c Jars on 30 Days' Trial—No Charge if Not Delighted with the Results.

Every year thousands of people, suffering from various forms of lung trouble, make a pilgrimage to the pine barrens of North Carolina, "the land of the long leaf pine." The reason lies in the warm, dry air, perfumed with the spicy odor of the pines.

Local druggists, however, have recently received a treatment that is almost as good as a trip South. This is VapoRub, the invention of a North Carolina druggist.

VapoRub comes in salve form and when applied over the throat and chest, the body heat releases medicated vapors that are inhaled with

each breath, through the air passages, to the lungs, loosening the phlegm and soothing the inflamed membrane. It cures all severe chest colds, bronchitis, tonsillitis or incipient pneumonia, first apply hot, wet towels to open the pores. VapoRub is then absorbed through and stimulates the skin, taking out that tightness and soreness in the chest.

One rubbing with VapoRub usually relieves croup within a few minutes and an application at bedtime prevents a night attack. For head colds, lay VapoRub on the forehead and nostrils or a little melted in a spoon and the vapors inhaled.

The progressive druggists here are anxious that their customers should try this new treatment, and are, therefore, offering VapoRub on 30 days' trial.

## FORTY YEARS AGO

Janesville Daily Gazette, March 4, 1878.—Dr. C. Lottus Martin is rapidly recovering from his late accident in Milwaukee.

Dr. Horne, after three weeks' illness, was able to be on the streets today, but is not yet fully recovered.

Mr. and Mrs. Nelson, reading at the mush and milk gathering of the old folks at All Souls has called out many compliments for that lady.

Justice Phelps is today busily inquiring into the details of the alleged assault made by Melder Parigo and Ed. Martin on John A. Collins and Henry Collins, all of the town of Fulton.

Several citizens complain of the fast driving indulged in by those who speed their horses on Main and Milwaukee streets. It is a noticeable fact that those who complain own no fast nags.

The case of Wilcox vs. Bates, which has been reopened by the supreme court, is now to be continued to the arguments on the matter of the rent of the farm only, leaving the other points of the controversy out in the cold. The rivalry between the two variety shows cropped out yesterday.

Neil Burgess has a fine grayhound which is sheltered in an elaborate blanket bearing the words in prominent letters, "My Mother-in-Law," the title of one of his comedies. The hound, following his master about the streets, made a good card. Cavanaugh saw the dog and, hiring a lad, bearing a like inscription, and announcing his benefit. If those two "mother-in-laws" should happen to meet on the corner, what howling war whoop might result.

## Certain-teed Roofing

From every standpoint of service and cost—

Certain-teed has proved its claim—"The best type of roof for most buildings, and the best quality roofing of its type".

Certain-teed has made good all over the world under all conditions—as proved by its enormous sale. It has become the standard roof for buildings of all types and sizes—

for factories, round houses, elevators, garages, warehouses, hotels, farm buildings, stores, out-buildings, etc.

Its economy is three-fold—first cost moderate, laying cost low, up-keep practically nothing.

Its efficiency embraces every important roofing quality—weather proof, spark proof, rust and rot proof, clean and sanitary, and very durable. Certain-teed is not affected by acids, fumes or smoke, and does not melt under the hottest sun.

Guaranteed 5, 10 or 15 years, according to thickness.

It pays to get Certain-teed because it costs no more to lay than ordinary roll roofing, and lasts much longer.

## GERMANY'S SUPPLY OF IRON IS SMALL

(Special to the Gazette.)  
Amsterdam, Netherlands, March 4.—The fact that Germany's home supplies of iron ore are limited, coupled with the difficulties of procuring iron ore from abroad, is believed to be the reason for the German government's decision to restrict the export of iron ore to the United States. The German government has decided to restrict the export of iron ore to the United States to the amount of 100,000 tons for the year 1918. This is a decrease of 445,275,230 from last year.

## YOUNG PEOPLE GROW EXTRA LARGE CROPS

(By International News.)  
Washington, March 4.—Three hundred thousand members of the boys and girls agriculture clubs in thirty-two northern states produced a crop to the total value of \$2,000,000 last year, according to the department of agriculture.  
This organized body of boy and girl farmers cleared a net profit of one and a half million dollars during the year.  
In Utah the 25,000 members raised a crop totaling nearly a million dollars, also raising over a million pounds of pork as the yearly product. With a vast increase in membership, these clubs are expected to be of great help in the production of this year's crop. The department of agriculture at present is encouraging the organization of pig clubs and is endeavoring to finance pig raising projects.  
With an investment of \$15 a member of a Utah pig club made a profit of \$105 from his sow in ten months. Since the organization of a pig project in one county in Utah during January, 1917, a net profit of \$3,100 was realized by the members.  
About ninety boys and girls were incorporated in the pig business. Within a short time each pig increased in value to the extent of \$25.

## SIXTY CHICAGO POLICE SHOT DOWN IN 4 YEARS

Chicago, March 4.—Records show that sixty policemen have been shot in the last four years while on duty in Chicago. This is an average of five every four months. Of those shot twenty were killed outright or subsequently died from wounds. All of them were shot intentionally in the performance of their duty, and five policemen who were shot accidentally or unintentionally are not included in the list.  
That the practice of shooting policemen is not dying out is indicated by the fact that at least four officers have been wounded since Jan. 1, 1915. Although none of these have died, two of them were seriously wounded. All were shot down in revolver duels with suspected criminals.

## PROHIBITION IN HAWAII IS FAVORED BY SENATE

Washington, Mar. 4.—A favorable report to the senate was ordered by the committee on the bill providing prohibition in Hawaii during the war with a referendum vote within two years after peace to determine whether the bills shall be permanent.

## PLYMOUTH

Plymouth, March 1.—Several from here attended the Benis auction near Footville Tuesday.  
The families of William Tew, Bill Balch, Herman Demrow, Charley Kettle and Arthur V. Arnold are quarantined with scarlet fever. Some cases are very bad.  
The sympathy of the entire community goes to the home of Mr. and Mrs. Charley Kettle in their late bereavement. A great disappointment to all the neighbors is that the home is quarantined so no one can come to their assistance.  
The quarantine card has been removed from the home of Hubbard Royce and the whole family is over with the small pox.  
Orin Jones, who was taken to the Beloit hospital some time ago and operated on for appendicitis, and while there became afflicted with small pox, is home again and feeling fine.  
The entire community was shocked to learn of the death of Archie Arnold, who passed away at his home by the Plymouth church Thursday afternoon at 1:30 o'clock from blood poisoning caused by vaccination. Mrs. Archie Arnold has not sufficiently recovered from her recent illness to be able to be up. The heartfelt sympathy of the community goes to all the family.  
The nurse who has been taking care of the sick at Leonard Sparks, has returned to her home in Orfordville. Steinar Hogan was taken to the Beloit hospital by Dr. Belting of Orfordville Wednesday morning and operated on for appendicitis at once. Last reports say he is getting along nicely.  
Charles Cone hauled potatoes to Beloit Friday.  
Henry Cone delivered his tobacco at Orfordville Thursday.  
Ernest and Frank Behling are down with small pox and the home quarantined. They are on the gain.  
The whole neighborhood is rejoicing over the fact that they have a milk hauler again. Jack of Hanover has the job.

## Milton Junction

Milton Junction, March 4.—The Rev. Perry Miller of Janesville preached a strong sermon at the morning service at the M. E. Church Sunday. The Epworth League was held in the afternoon and there was an evening service on account of the frozen gas main.  
Fomer Potter has resigned from his position as rural mail carrier. Ralph Hossinger is making his route for the present.  
Mr. and Mrs. Robert Davis leave today for Kansas, called by the death of a relative.  
Mr. and Mrs. Brown who have been visiting friends here, returned to their home in the northern part of the state Saturday.

Arthur Holmes, who is enlisted in the medical corps, is here on a furlough, a guest of his parents, Mr. and Mrs. W. H. Holmes.  
Willy Poper was a Madison visitor Sunday.  
Bernard Garthwaite of Rockford visited friends here over Sunday.  
Mrs. Aug. Zabel of Janesville spent Saturday with her daughter, Mrs. Edw. Hull.  
Olive Shadel spent Saturday with Madison friends.  
Mrs. Hull spent Saturday with Whitewater relatives.

Chris and Louis Johnson were among others who spent Friday in Monroe.

NOTICE—The Gazette is on sale in Brodhead at Miller's News Stand.

## Orfordville News

Orfordville, March 2.—Corn Rime has accepted a position with the Farmers and Merchants' bank and has commenced her duties there.  
Mrs. C. Stuvenger has been appointed made grandmother for the third time. Her daughter, Mrs. H. C. Johnson of Beloit, announces the birth of a baby girl at their home at the Line City.

Rev. C. W. Bear of South Beloit, came to Plymouth on Saturday to conduct the funeral of the late Archie Arnold.  
The regular meeting of the Anti-Horse Thief society was held at the Odd Fellows' building on Saturday afternoon. There was a good attendance and the routine business was transacted.  
Helmer Kaalrud of the town of Avon, who for the past several months has been at the U. S. shipyards at Portsmouth, Va., where he acquired the title of a first class machinist on the U. S. submarine No. 220, arrived in the village on Saturday morning and will spend the greater part of his fifteen day furlough at the home of his parents. He expects to cross the ocean in the near future as one of the crew of the submarine. He speaks in the highest terms of the U. S. naval service. His advancement since his enlistment is a source of gratification to his many friends.

## Sales of the Friendly Forest

Well, as I told you in the last story, Uncle Lucky let his little rabbit nephew in the front door, and wasn't he glad to see him. And so would you if you had locked out your rabbit aunt or cousin by mistake.  
"Do you feel hungry?" asked Uncle Lucky as he closed the door, "because if you do, I'll get you some carrot cheese."  
Then they both went into the pantry and had a feast, and when they had finished some coffee and made believe it was breakfast, and after that they went out to the garden to look at the cabbage and carrots. And Uncle Lucky happened to remember there was a picnic that day in the woods, so he picked a lot of cabbages and carrots and went into the kitchen, and in a few minutes he had packed a big hamper, which is a large basket, just full of all sorts of good things, eat, pies and cakes and sandwiches and sarsaparilla and lemon soda and hard boiled eggs, and then he dragged it out and put it into the automobile. And after that he sat down and wiped his forehead with his big blue polka dot handkerchief, for he was pretty warm.  
"Put some gasoline in the tank," Bill Bunny said to the old gentleman rabbit, taking off his stovepipe hat and wiping the rim inside with the same polka-dot handkerchief, for his other one was upstairs in the left-hand corner of his upper bureau and he was too tired to hop upstairs and get it. So the little rabbit got the same time ago.

## BUMPER WHEAT CROP IN FRANCE EXPECTED

(By Associated Press.)

Paris, March 4.—France, without a "bumper" crop of corn to fall back upon, is making a brave effort to increase the yield of other foodstuffs and there are now for the first time signs that the effort is producing results.

Nearly a million more acres of wheat were sown last fall than in 1916, according to recently completed statistics. With ordinary good luck this means 20,000,000 bushels more of wheat. Spring seeding this year may exceed that of 1917 in nearly the same extent, which will bring the French wheat crop this year up to 40,000,000 bushels more than last year. The bread card, taking effect Jan. 23, was intended to save from food consumption the billion bushels required for the extended seeding.  
M. Compera-Morel, commissary of

agriculture, charged with the revision of seedling, has already distributed 600 bushels of Manitoba wheat among farmers. It is evident important gains will be made in the crop of 1918.

The decision of the French minister to issue cards regulating the distribution of bread to 300 grams (about 11 ounces) a day, is a much comment. Some criticism of the measure is being made, but the opinion may be summed up in the good natured remark of a morning paper which says "that for an old man who dies of starvation there are a hundred who succumb to indigestion."

Generally, however, the press seems to adopt a very serious point of view of the innovation. The French are notoriously the greatest bread eaters in the world and much doubt is expressed as to the ration of a kilogram a half pound per day being sufficient.

From now on the Gazette will be on sale at the P. E. Ash book store and people requiring a paper can secure one there.
